Doing Business with GTE

Setting Up or Changing Your Phone Service

If you've just moved into a new home or established a new business, we will be happy to connect your phone service. We can also make any changes needed to your current service. Please call GTE's Customer Contact Center at one of these toll-free numbers:

Residential customers **1-800-483-4000**
Business customers **1-800-483-5000**

For changes or additions to your service, you can also contact the **GTE Phone Mart** at **1-800-483-6697.**

All customers with Text Telephones (TTYs–special equipment for people with hearing and/or speech disabilities) call GTE through the Arkansas Relay Service. (Please see page 35 for calling instructions.)

To speed service, please provide the following information when applying for new telephone service:

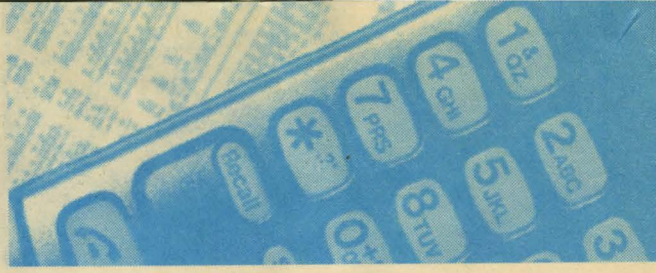
1. Your street address
2. How you want your name to appear in the directory
3. The type of local service you want
4. The other calling services you want to order — i.e., Call Waiting, etc.
5. Information about previous telephone service

Residential phones are installed for normal domestic use. Residential telephone service will be changed to business service if the phone is used primarily for business or is advertised for business purposes. If you are a business customer who wants to change from business to residential telephone service, you will be required to change your telephone number.

Please Note: To ensure your white page listing is correct for the next directory, please call the appropriate 1-800 number at least three months prior to the publication date to make any additions, changes, or deletions.

Lifeline and Link-Up Programs

The Arkansas Public Service Commission and the Federal Communications Commission have established two programs to make telephone service more affordable. Under the plans, qualified low-income telephone customers receive a discount on the installation for new service and a discount on monthly local telephone service.



Qualifiers

Current recipients of Supplemental Security Income (SSI), Food Stamps or Temporary Assistance for Needy Families also known as Work First (formerly Aid for Families with Dependent Children).

Link-Up

Provides for a discount of 50% of tariffed charges up to $30 for new installations at the subscriber's principal place of residence.

Lifeline Program

Reduces the monthly local telephone bill for low-income customers.

How to Apply for these Programs

If you do not have service and want to apply for both Link-Up and Lifeline:

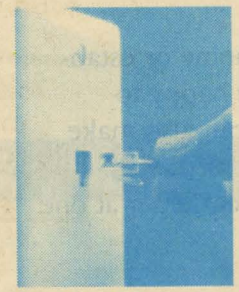
- Contact the local telephone company and place an application for service.
- A Link-Up application form will be mailed to you.
- Take the form to the appropriate agency — either the Department of Social Services or the Social Security Administration — for approval.
- Once the form is completed by the agency, the agency will mail the form to your serving telephone company.
- Your service will be installed when your telephone company receives the approved form. At that time the credit for Link-Up will be applied and the monthly Lifeline discount will begin. If you request service to be installed before the approved form is received, the service will be provided without the Link-Up credit. Your monthly Lifeline discount will begin only when the approved form has been received.

If you have service and want to apply for the Lifeline Discount:

- Contact the appropriate agency — either the Department of Social Services or the Social Security Administration.
- The Social Services caseworker or the SSA representative will complete the Lifeline form for you and mail it to the local telephone company.
- When the telephone company receives the approved application, the discount for Lifeline will begin.

Call your Social Services caseworker, your SSA representative, or your local telephone company for more information about these programs.

The Lifeline program is supported by the federal and state universal service support mechanisms. Link-Up is supported by the federal universal service support mechanism.



Installation Charges

Please talk to GTE's Customer Contact Center about the charges for your area. Installation charges generally appear on your first telephone bill.

If you are a residential customer, you have the option of paying your installation service charges in six equal monthly installments.

For more information about installation charges, please call GTE's Customer Contact Center at one of these toll-free numbers:

Residential customers **1-800-483-4000**
Business customers **1-800-483-5000**

Text Telephone (TTY) customers call GTE through the Arkansas Relay Service. (Please see page 35 for calling instructions.)

Basic Service Cost

The chart below shows the monthly charges for basic service. Rates are based upon location and type of service and do not include the interstate end user access charge. All rates are subject to change.

Billing

If you have billing questions, please contact us at one of these toll-free numbers:

Residential customers **1-800-483-3000**
Business customers **1-800-483-5000**

Text Telephone (TTY) customers call GTE through the Arkansas Relay Service. (Please see page 35 for calling instructions.)

For your convenience, you can also use GTE's automated system to check the status of your bill and make payment arrangements. Before you call, please locate your customer ID number. You'll find it on the first page of your bill next to your telephone number. The automated system is accessed by calling the telephone number (listed in the left column) for residential customers. (This service is only available to residential customers.)

You are billed monthly. Look for standard charges, including local service (billed one month in advance), long-distance calls (if applicable), optional services, and any past due amount. Your first bill will also include charges for installation costs and prorated local service. You are responsible for all long-distance calls made from a telephone number for which you have billing responsibility. You are also responsible for all authorized charges made to your calling card.

BASIC RATES

Location	Residential	EAS Residential	Total Residential	Business	EAS Business	Total Business
Atkins	8.00	4.15	12.15	16.00	4.15	20.15
Centerville	8.00	2.75	10.75	16.00	2.75	18.75
Clarksville	8.00	2.75	10.75	16.00	2.75	18.75
Dardanelle	8.00	2.10	10.10	16.00	2.10	18.10

Hartman	8.00	2.75	10.75	16.00	2.75	18.75
Hector	8.00	4.15	12.15	16.00	4.15	20.15
Lamar	8.00	2.75	10.75	16.00	2.75	18.75
London	8.00	4.15	12.15	16.00	4.15	20.15
Russellville	8.00	2.75	10.75	16.00	2.75	18.75
Salus	8.00	2.75	10.75	16.00	2.75	18.75

The due date for your payment is printed on the bottom of your bill. If you are sending us your payment, we must receive it on or before the due date. If you are paying in person at an authorized payment location, you need to do so before our close of business on the due date. For more information about authorized payment locations in your area, please call your GTE Customer Contact Center at one of these toll-free numbers:

Residential customers **1-800-483-3000**
Business customers **1-800-483-5000**

Text Telephone (TTY) customers call GTE through the Arkansas Relay Service. (Please see page 35 for calling instructions.)

If you request to have your service disconnected, billing to your account will stop on the disconnection date you request.

Deferred Payment Plan

If you cannot pay your bill by the due date, we may be able to offer you a delayed payment agreement or an extended due date.

GTE will enter into a delayed payment agreement with a qualifying customer if the customer agrees to pay the down payment and all installments by their due dates and to pay all new bills in full by each bill's respective due date. GTE will not require more than 25% of the overdue bill as a down payment. GTE allows customers to pay their overdue charges in equal installment payments over a period of at least three months beginning with the date of the initial payment.

Customers in the following situations can have their payment due dates changed to coincide with or follow the receipt of their income:

- Persons receiving Aid to Families with Dependent Children or Aid to the Aged, Blind, and Disabled
- Persons receiving Supplemental Security Income
- Persons whose primary source of income is Social Security, Veterans Disability, or Retirement Benefits

If you plan to be away from your home for an extended period of time, payment options are available to prevent the suspension of your telephone service. Examples include advance payments and bank drafts.

For more information about billing and payment options, please contact a GTE representative at one of these toll-free numbers:

Residential customers **1-800-483-3000**
Business customers **1-800-483-5000**

Text Telephone (TTY) customers call GTE through the Arkansas Relay Service. (See page 35 for calling instructions.)

GTE's Credit Policy

Your Payment Record Can Affect Your Long-Distance Service

We've changed our credit policy for all residential customers who do not have an established record of paying their bills in full and on time.

If you're affected by this change, you'll find the following phrase beside the Total Amount Due on your bill's Summary Page:

> **"If payment is not received by the Due Date, your long-distance service may be restricted."**

If this phrase appears on your bill and the total amount is not paid by the Due Date, your long-distance service may be blocked until the overdue amount is paid. Service restrictions will not occur for disputed amounts when a complaint is pending.

Access to local phone service and **9 1 1** emergency services will not be blocked.

Questions about GTE's credit policy or our quick and easy payment options? Call us toll-free at:

Residential customers **1-800-483-1807**

Text Telephone (TTY) customers call GTE through the Arkansas Relay Service. (See page 35 for calling instructions.)

Payment Locations

You can pay by mail or by automatic bank payment. You may also be able to pay in person. For mailed payments, please use the return envelope enclosed with your bill. Do not send cash. Payments for local service go to GTE, P. O. Box 920041, Dallas, TX 75392-0041. Payments for equipment rental and maintenance bills go to GTE, P. O. Box 660652, Dallas, TX 75266-0652. For automatic bank payments from your account or for a list of authorized payment agents in your area, contact your service representative.

Disconnect Service

Telephone service can be disconnected if you don't pay your telephone bill. Your payment is due 22 days from the date your bill is mailed. If full payment is not received by that date, you may receive a "shut-off notice" telling you that your service may be temporarily suspended because you haven't paid your bill. The shut-off notice will include a new due date, by which you must pay all outstanding charges to avoid having your service suspended. (Required payment following disconnection will include all late charges and reconnection charges.)

Your service won't be disconnected until you've been given a written warning and your payment still hasn't been received. If you are concerned about your ability to receive or understand disconnection notices, you can request that copies of all of your notices be sent to another person.

Disconnection of residential service can be postponed if the discontinuance of telephone service will aggravate an existing medical emergency in the household. A physician or other health care professional must notify GTE about the medical situation and fill out a medical certificate form. Special allowances can also be made for customers who are 65 years old or older or are disabled. Customers fitting into these categories should register with GTE in advance of any billing or payment problems. Then, if a payment problem does occur, the customer will be contacted and offered assistance.

Other Reasons Telephone Service Could Be Disconnected Are:

1. Failure to comply with the terms of a deferred payment agreement
2. Failure to comply with credit arrangements
3. Failure to remove unauthorized attachments from GTE lines, after receiving written notice
4. Failure to stop abuse or misuse of telephone service, such as calls made in a profane, obscene, or frightening manner, after receiving written notice
5. Abandonment of telephone service without notice to GTE
6. Tampering with or bypassing GTE's equipment
7. Giving false information to obtain telephone service
8. Failure to allow GTE access to our equipment on your premises

9. Violating the rules designed to prevent interference with other customers' telephone service
10. Causing (or threatening to cause) damage to GTE's equipment or injury to a GTE employee
11. Violating federal, state, or local laws through the use of telephone service
12. Causing a situation that poses a health or safety hazard

Please Note: Your service won't be disconnected if you fail to pay an amount currently involved in payment dispute and resolution procedures. You must, however, pay the entire amount of your bill(s) that is not in dispute. Settlement of the disputed amount should take place once the dispute is resolved. Settlement of disputed amounts should not exceed 60 days under any circumstances.

Directory Assistance Charges

You can locate a **local or long-distance** telephone number anywhere in the U. S. simply by calling **411.**

Within the United States, you can locate a **long-distance** number by calling 411. (You do not need to know the area code.) For 95¢ per call you can request up to two listings — at the start of your call, please tell the operator that you will be requesting more than one listing. **Note:** National Directory Assistance may not be available in all GTE serving areas. Prices are subject to change.

Within your **local** calling area, you can make one Directory Assistance call during each monthly billing period at no cost. Extra calls are billed at 40¢ each. You may request two numbers at a time — at the start of your call, please tell the operator that you will be requesting two listings.

Can't find pen and paper to write down the number? Simply press 1, and the number you requested from Directory Assistance is automatically dialed for you. Completed Directory Connect Plus calls cost 50¢ and will be charged to your phone bill in addition to any other applicable Directory Assistance charges. (Charges will also apply to calls placed by disabled customers.) This service is not applicable to non-published numbers nor will the service be provided to 800/877/888 and 700/900/976 numbers. (Please see page 34 for Directory Assistance calling instructions.)

The Arkansas Public Service Commission regulates the charges listed here. These rates were correct on the date that this directory was compiled. These charges are subject to change by order of the Arkansas Public Service Commission. Current rates are always available from GTE's Customer Contact Center.

Repair

For repair service, please contact GTE's Customer Care Center at one of these toll-free numbers:

Residential customers and single line business customers (two lines or less) **1-800-483-1000**
Business customers with multiple lines (three lines or more) **1-800-483-2000**

Text Telephone (TTY) customers call GTE through the Arkansas Relay Service. (See page 35 for calling instructions.)

Before calling, please read the following information. It will help you and your GTE customer service representative identify what is wrong with your phone.

The following situations usually indicate a problem with the outside line:

- No dial tone on all phones
- Can't call in or out on all phones
- Get cut off when talking on all phones
- Noise or static on all phones

The following situations usually indicate a problem with the inside lines:

- A phone works in one jack but not in another
- Loose or broken phone jack

The following situations usually indicate a problem with the telephone:

- Stuck push buttons
- Worn cords
- Broken clips or plugs
- Stuck receiver buttons

When you have a service problem, we'll do our best to quickly locate and clear up the trouble. Depending on the source of the problem, the following guidelines will apply:

Outside Line: All too often, private homeowners and construction crews unintentionally dig up land where telephone lines and cables are buried. This sometimes results in costly damage or destruction. Before you do any extensive digging or construction on your property or public lands, please dial 1-800-482-8998. Flags will be placed indicating buried cables. This is an absolutely free service. **So please call before you dig!** In instances of telephone cable damage or severance, charges will be assessed to the offending party.

Inside Line: Generally, phone lines inside your home are yours to maintain and repair. For worry-free inside line maintenance, GTE offers an optional Inside Wire Maintenance Service (previously called Lineskeeper® Service), at a low monthly fee. (Please see pages 12-15 for more information.) If you subscribe to Inside Wire Maintenance Service, GTE will repair your inside wires at no additional charge. Call toll-free, **1-800-483-4000,** for more information about Inside Wire Maintenance Service.

Telephone: If you rent from GTE, repair is included in your monthly fee. If you own your telephones, you are responsible for their repair and should follow the warranty instructions.

For your protection, GTE employees are required to carry official employee identification cards when working in your home. This card includes the employee's name and photograph. We suggest you ask to see this ID card before allowing any repair person to enter your home. If you have any questions, call **1-800-483-1000.**

Customer Service

We hope it won't happen, but if you have a complaint about your telephone service, please discuss the problem with a GTE customer service representative. Our representatives are specially trained to solve your telephone problems.

Residential customers **1-800-483-4000**
Business customers **1-800-483-5000**

Text Telephone (TTY) customers call GTE through the Arkansas Relay Service. (Please see page 35 for calling instructions.)

If your GTE customer service representative cannot resolve your problem, ask to speak with a supervisor or manager. If you still have not resolved your complaint, call **1-800-483-7988.**

You may also contact the Arkansas Public Service Commission for further review of your complaint or dispute. To reach the commission, you may write or call:

Arkansas Public Service Commission
1000 Center Street
P. O. Box 400
Little Rock, AR 72203
501-682-1718 or 1-800-482-1164

Inside Wiring

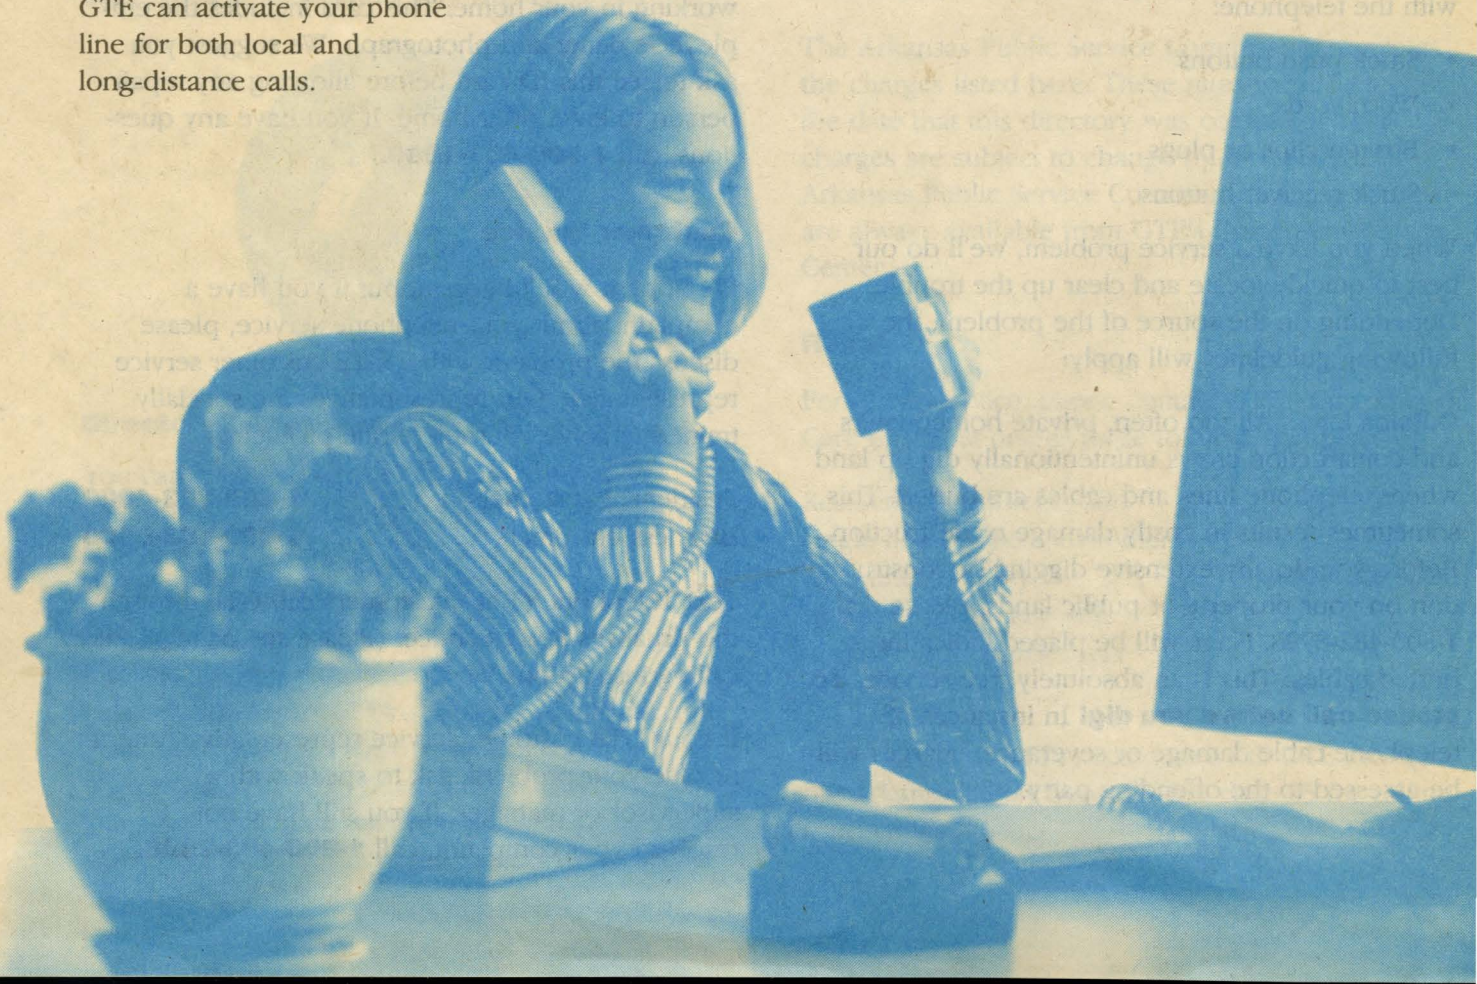
If your home or business requires wiring, GTE can provide quality inside wiring service. Also, during construction or remodeling, GTE can prewire structures to eliminate exposed wiring. Check to see if your home or place of business is already wired for telephone service. If so, GTE can activate your phone line for both local and long-distance calls.

Independent contractors and residential customers can also wire buildings for telephone service. GTE will provide the necessary telephone interface to the building. Please remember that all inside wiring must meet the regulated standards.

Inside Wire Maintenance Service Plan

About the Plan

GTE's Inside Wire Maintenance Plan (previously called Lineskeeper Service) is an optional monthly service for residential and small business customers that provides repair protection for the telephone jacks and wires inside your home or office.



Telephone lines connect to a Network Interface Device on your property. This interface device is often located on the outside wall of your home or another building on the property, such as a garage. From this interface connection point, telephone lines extend into the building, through the jacks where you plug in your phones. This wiring, from the Network Interface Device to the jacks, is called "inside wire." GTE's Inside Wire Maintenance Plan covers repairs to the inside wire and the jacks. With GTE's Inside Wire Maintenance Plan, GTE will repair faulty jacks and inside wire at no additional charge.

You do not need to purchase inside wire maintenance service in order to obtain basic telephone service. If you purchase inside wire maintenance service, you may cancel it at any time without penalty.

Possible Problems with Telephone Wire and Jacks

Telephone wire and jacks have a long life. They last for many years and do not normally go bad just because of age. But many things, including everyday wear and tear, can damage the telephone wire or jacks inside your home. Damage can occur from activities such as home repair, someone accidentally cutting the wire, an animal scratching through the wire, something knocking a jack loose, or other unforeseen events. It is not possible to predict when or how frequently this type of damage occurs. The charge you pay for basic GTE residential telephone service does not cover these types of repairs. It is your responsibility to get your wire or jacks fixed if something does go wrong. With GTE's Inside Wire Maintenance Plan, you'll never again pay for unexpected or expensive repairs to your jacks or inside wire. First, we take care of the problem. Then, we take care of the repair bill.

Repairs Covered by the Plan

With an Inside Wire Maintenance Plan, GTE will repair faulty telephone jacks or wire inside your home. GTE's Inside Wire Maintenance Plan also includes these valuable benefits:

- Diagnostic work to determine where the problem is. GTE's Inside Wire Maintenance Plan does not include repair of the phone or other equipment, such as answering machines and computer modems, connected to the jacks, but does include letting you know if the problem is in the equipment so that you can have the equipment repaired.
- Coverage on all newly installed or relocated standard telephone inside wire and jacks
- Discounted labor rates on service to add new wiring and jacks or to replace nonstandard wiring

Repairs Not Covered By the Plan

GTE's Inside Wire Maintenance Plan coverage does not cover:

- Repair of telephone instruments and other devices, such as computer modems and answering machines, connected to the inside wiring and jacks
- Inside wiring and jack coverage for marine activity, recreational vehicles (RVs) and construction trailers, or other temporary or moveable structures
- Damage due to natural disasters, floods, or acts of God, other than lightning

- Nonstandard wiring. This is wiring that does not meet telephone industry standards or the National Electric Code Material Standards for carrying telephone signals. Nonstandard wiring may work in some situations, such as for single line service, but may not work properly in other situations, such as for two line service where you may get crosstalk. GTE's Inside Wire Maintenance Plan will cover the repair of breaks to nonstandard wire, but only to restore the wire to its original condition. GTE's Inside Wire Maintenance Plan does not cover replacement of nonstandard wire. However, GTE's Inside Wire Maintenance Plan does include a 50% discount on GTE parts and labor rates to replace nonstandard wire with wiring that does meet appropriate standards for telephone service. This discount is not available if you do not have GTE's Inside Wire Maintenance Plan, and GTE's normal rates would apply.
- Repair of damage due to malicious activity, vandalism, riot, or civil disturbance

GTE Inside Wire Maintenance Plan Keeps You Talking

When you report a problem with your telephone wire or jacks inside your home, we know you'll want it fixed as soon as possible. With GTE's Inside Wire Maintenance Plan we'll dispatch an experienced GTE technician to your home or office to fix the problem at no cost to you beyond the monthly charge for inside wire maintenance service.

Hassle-Free Service

GTE's Inside Wire Maintenance Plan provides you reliable protection for only pennies a day. This charge applies for each telephone line in your residence or office. If you do not have GTE's Inside Wire Maintenance Plan, and you call GTE to make the repairs, you will be billed at GTE's normal repair rate. Currently this normal repair rate is approximately $85 per hour, and you will be billed for a minimum of one hour. All time beyond this one hour minimum is charged at 15 minute intervals. Currently the rate per 15 minute interval is approximately $21. Repairs can often be completed within one hour, but some repairs take longer, depending on what the conditions are at your home or office.

GTE's Inside Wire Maintenance Plan is an unregulated monthly service that can be canceled at any time without penalty. If you choose not to subscribe to GTE's Inside Wire Maintenance Plan and your inside wiring or jacks break, you can still call GTE to do the repairs at an hourly rate. You can also get inside wire maintenance and repair service from companies other than GTE. Or, if you prefer, you can do the work yourself.

Additional Service Information

- If you are currently renting your phone from GTE, GTE's Inside Wire Maintenance Plan charge is in addition to your monthly telephone rental charge.
- If you rent your home, you should be aware that residential landlords may be responsible for repairs and maintenance of inside telephone wire. Check with your landlord or your lease to determine who is responsible for inside wire maintenance and repair.

- GTE's Inside Wire Maintenance Plan is available to residential and single line business customers. The business rate may be different from the residential rate. GTE's Inside Wire Maintenance Plan is not available to business customers who use Key/PBX Systems. ISDN and other specialty lines are not eligible for coverage.

For GTE's complete service package, choose TELEPHONE AND LINE CARE. It gives you both a GTE rental phone and Inside Wire Maintenance Service. For details call **1-800-483-4852.**

GTE Phone Mart

Residential customers **1-800-483-4000**
Business customers **1-800-483-5000**

Text Telephone (TTY) customers call GTE through the Arkansas Relay Service. (Please see page 35 for calling instructions.)

Easy-to-Use Products and Services from GTE

GTE offers many services that can make your telephone work harder and smarter for you. Many of these services are "GTE calling services." You'll learn all about our special services and how to use them. You can also get acquainted with some other helpful services we offer for your home and business. Please call GTE's Customer Contact Center at one of these toll-free numbers:

Residential customers **1-800-483-4000**
Business customers **1-800-483-5000**

Text Telephone (TTY) customers call GTE through the Arkansas Relay Service. (Please see page 35 for calling instructions.).

GTE Calling Services Requirements

GTE calling services will work with touch call or rotary dial telephones. (**Note:** In addition to your regular phone, you'll need a special display device to use Caller ID services.) The instructions in this section are for touch call phones — phones with a push-button pad, which is called "the touch pad." (Modifying these instructions for rotary phones is explained in this section.)

Using your GTE calling services is even easier with a GTE screen-display phone.

Please Note: Not all services are available in all areas.

Basic Terms Associated with GTE Calling Services

Star and Pound Keys — When using some of your GTE calling features, you will be instructed to press either the *"star"* * or the *"pound"* # key. These keys are located to the left and to the right of the **0** on the touch pad.

Hookswitch — The button that disconnects your call when you hang up the telephone is the hookswitch. When the instructions read, *"press and release the hookswitch,"* hold the hookswitch down for only a second – about the time it takes to say *"one thousand and one."* If your phone has a *"FLASH"* button, you can use it instead of the hookswitch.

Pulse/Tone Switch — Some touch call telephones have a switch that allows them to be used with either Touch Call or rotary service. Place the switch on *"tone."*

Many of the services provide recorded instructions that guide you through using the services. You may interrupt the voice recording at any time by entering the required code or telephone number.

If you are using a rotary phone with your GTE calling services, you will need to modify the instructions as follows:

Dial **1 1** instead of pressing *. Wait four seconds instead of pressing **#.** For example, if the instructions read **"press * 7 0"** dial **1 1 7 0.** When the instructions read **"press 7 0 #,"** dial **7 0** and wait four seconds.

For more information or to order special services, call **1-800-483-4000** *(residential customers)* ***or*** **1-800-483-5000** *(business customers). Not all services are available in all areas. Ask about personalizing your own package of GTE calling services at a discount.*

CentraNet is a registered service mark of GTE Service Corporation.

FEATURE	DESCRIPTION	INSTRUCTIONS
Anonymous Call Block	Blocks calls from people who have activated either the Selective Blocking or Complete Blocking feature, which prevents their name and/or phone number from being displayed on a Caller ID device.	**Press * 7 7 to activate this service.** Blocked callers will hear a message instructing them to hang up, remove their blocking, and call again. **Press * 8 7 to deactivate this feature.**
***66 Busy Redial**	Monitors busy phone numbers for 30 minutes, alerting you with a special ring when your call is ready.	**Press * 6 6 to activate.** This service is available for 75¢ per use in some areas, or for a low monthly charge.
***69 Call Return**	Dials the phone number of the last call you received. If the number is busy, this feature will place your call next in line and will alert you by ringing you back when the number is no longer busy.	**Press * 6 9 to activate.** This service is available for 75¢ per use in some areas, or for a low monthly charge.
Call Block	Blocks incoming calls from phone numbers on the Call Block list you create. You may block up to 12 phone numbers. Blocked callers will hear a recording saying you are presently not taking calls.	**Press * 6 0** and follow the voice prompts. Calls made to you from outside your local calling area or through the operator cannot be blocked. This is for your protection in case of an emergency.
Call Forwarding	Forwards all of your incoming calls to another telephone number that you have specified.	**Press 7 2 # and enter the phone number where you want your calls forwarded.** Two short tones verify Call Forwarding is activated. **Press 7 3 # to deactivate.**
Call Forwarding - Busy	Allows you to forward incoming calls to a fixed number of your choice. Calls will forward when you are on the telephone.	**Press 5 4 # to activate,** and listen for two brief tones to confirm your selection is on. **Press 5 5 # to deactivate.**

FEATURE	DESCRIPTION	INSTRUCTIONS
Call Forwarding - No Answer	Allows you to forward incoming calls to a fixed number of your choice. Calls will forward when you are not available.	**Press 5 2 # to activate,** and listen for two brief tones to confirm your selection is on. **Press 5 3 # to deactivate.**
Special Call Forwarding	Forwards specific incoming calls to another telephone number.	**Press * 6 3.** Follow the voice prompts.
Call Tracing Service	Allows you to automatically trace threatening or harassing phone calls from within your defined calling area.	Hang up on the offensive call. Lift the handset and listen for the dial tone. **Press * 5 7** and listen to the message. **Press 1** to complete the trace. The system traces the last incoming call. If the trace is successful and you decide to take legal action, record the exact date and time of the call and contact GTE at **1-800-257-2969** within one business day. NOTE: GTE can release call trace information to law enforcement agencies only.
Call Waiting	Alerts you to another incoming call when you are on the phone and lets you alternate between callers.	Upon hearing the Call Waiting tone, **press and release the hookswitch** to answer the incoming call.
Cancel Call Waiting	Turns your Call Waiting feature off for the length of an individual call. Call Waiting automatically returns to your phone at the end of your call.	**Press * 7 0,** listen for three tones followed by a normal dial tone. Enter the phone number you are calling. (Cancel Call Waiting can be used during a call in some areas. **Press and release the hookswitch and press * 7 0,** you will reconnect automatically to your call.)
Caller ID - Number	Displays the telephone number of an incoming call.	The date and time of day each call was received is also displayed. Caller ID service requires a compatible display device that can be rented or purchased from GTE.

Not all services are available in all areas.

FEATURE	DESCRIPTION	INSTRUCTIONS
Caller ID - Name and Number	Displays the name and telephone number of an incoming call.	The date and time of day each call was received is also displayed. Caller ID service requires a name and number compatible display device that can be rented or purchased from GTE.
Call Waiting ID	When you hear the Call Waiting signal, your Call Waiting ID compatible display unit will show the name and telephone number of the incoming call. You may decide whether to interrupt your call to talk to the caller or call back.	The date and time of day each call was received is also displayed. Call Waiting ID service requires a Call Waiting ID compatible display device or phone that can be purchased from GTE. NOTE: This equipment is different from a standard Caller ID device. Moreover, this service is only available in certain GTE areas at this time.
Distinctive Ring	Gives you two phone numbers for one phone line. Each number has its own special ring.	Great for teenagers or for working at home. Call Waiting will work the same with both numbers, but will use one tone for your primary phone number and two short tones for the second number, so you will always know which phone number incoming calls are for.
Selective Blocking	Prevents your name and telephone number from being displayed on Caller ID devices, one call at a time. However, this will NOT prevent your telephone number from displaying on calls placed to 800/877/888, 700/900/976 numbers, or on calls placed to 9 1 1 emergency services.	**Press * 6 7.** Listen for the one confirmation tone, then place your call. This service works on an individual call basis. Once you hang up, the blocking is no longer in effect.
Complete Blocking	Prevents your name and telephone number from being displayed on Caller ID devices, each time you make a call. Your number will be displayed as "Private" or Anonymous." However, this will NOT prevent your telephone number from displaying on calls placed to 800/877/888, 700/900/976 numbers, or on calls placed to 9 1 1 emergency services.	**Press * 8 2** to turn off Complete Blocking. You can place your call even though you will not hear a dial tone. Your name and number will be available for this call only. When you hang up, your Complete Blocking service will be automatically restored.

Not all services are available in all areas.

FEATURE	DESCRIPTION	INSTRUCTIONS
Special Call Acceptance	Allows you to receive calls only from the numbers on your Special Call Acceptance list, up to 12 phone numbers.	**Press * 6 4.** Follow the voice prompts.
Speed Calling 8	Creates a list of up to 8 phone numbers that you can call using a one-digit code.	**To assign a code, press 7 4 #.** Enter the one-digit code you want to assign, using numbers 2 - 9, and the complete telephone number you want the code to represent. **To call a Speed Calling number, enter the assigned code and press #.**
Speed Calling 30	Creates a list of up to 30 phone numbers that you can call using a two-digit code.	**To assign a code, press 7 5 #.** Enter the two-digit code you want to assign, using numbers 20 - 49, and the complete telephone number you want the code to represent. **To call a Speed Calling number, enter the assigned code and press #.**
Three-Way Calling	Allows three people at different phone numbers to talk together at the same time, no matter who placed the call.	**Press and release the hook-switch** to put the first caller on hold. Listen for three tones followed by a dial tone. Call the third telephone number. To reconnect with the other caller when the third person answers, press the hookswitch.
VIP Alert	Assigns a special ring to the phone numbers on your VIP Alert screening list, up to 12 phone numbers.	**Press * 6 1.** Follow the voice prompts.

Not all services are available in all areas.

FEATURE	INSTRUCTIONS
Pager Notification (Deluxe package only) When you're out, the GTE Voice Mail service will call your pager to notify you that you have a message.	**If You are Turning Pager Notification On or Off for the Main Message Box** 1. Access your Main Message Box. 2. **Press 8** at main menu to select feature options. 3. **Press 5** to select Pager Notification. 4. **Press 1** to turn Main Message Box Pager Notification ON. **Press 2** to turn Main Message Box Pager Notification OFF.
Customer Controllable Ringing (Optional Service) Allows you to set the number of rings (2-9) before Voice Mail will answer a call.	**How to Set Up Customer Controllable Ringing** 1. Lift the handset. 2. **Press 5 8 #.** (In some locations, you must **press * 5 8.**) You will hear three short bursts of dial tone, followed by continuous dial tone. a. If you hear three short bursts of dial tone, the system is prompting you to enter the number of rings you want to hear before the call is forwarded to voice messaging. You can set the number of rings from 2-9. b. If you hear a normal dial tone, the system is prompting you to enter the number of seconds you want your phone to ring before the call is forwarded to voice messaging. 3. You will hear another stutter dial tone, or a confirmation signal, either of which confirms your selection. 4. Hang up the handset.
Audible Ring Burst (Optional Service) Lets you know when you have a message without having to pick up the phone. You will hear short ring bursts at programmed intervals.	**How to Turn ON Audible Ring Burst** 1. Lift the handset. 2. **Press 8 1 #.** After a short pause, you will hear two short bursts of dial tone, followed by a continuous dial tone. 3. Hang up the handset. To turn OFF: 1. Lift the handset. 2. **Press 8 2 #.** After a one-second pause, you will hear two short bursts of dial tone, followed by continuous dial tone. 3. Hang up the handset.

Special Services Available from GTE

GTE offers many telephone service enhancements for your home and office. The following can be added to either business or residential service.

To order special services, call:

Residential customers **1-800-483-4000**
Business customers **1-800-483-5000**

Text Telephone (TTY) customers call GTE through the Arkansas Relay Service. (Please see page 35 for calling instructions.)

Calling Cards

With a GTE Calling Card, you can place phone calls from any telephone and have the charges appear on your monthly bill. GTE Calling Card calls cost less than other operator-assisted calls. If GTE provides your telephone service, there is no charge for the card.

Message Rate Service

Are you looking for a way to save money on your basic local telephone service? If you make a limited number of phone calls each month, look into Message Rate Service. It's a money-saver for both business and residential customers.

Custom Code Restriction

It's possible that someone would use your telephone to place chargeable calls without your knowledge or permission. (For example, long-distance calls or calls to 700/900/976 numbers.)

You can avoid phone charges you haven't authorized if you subscribe to Custom Code Restriction. There are three service options with Custom Code Restriction:

1. Restriction of one-plus and zero-plus long-distance calls
2. Restriction of one-plus long-distance dialing only, or
3. Restriction of 1 + 700/900/976 numbers only.

Conference Calling

When you need to talk to people in different places at the same time, you may want to make a conference call. You'll find service providers in the Yellow Pages under Teleconference Service and Telephone Communications Service.

Toll-Free Service

GTE's Toll-Free Service makes it easy for out-of-town customers — or friends and family — to call you. It's simply a cost-effective way to allow callers outside of your local calling area to call you at no cost to them. Our Toll-Free Service is particularly effective for companies that want to increase their phone order business or expand their trading area.

Not all services are available in all areas.

Special Services Available for Your Business

GTE consultants can develop advanced communications programs for your company. We have resources to meet your present and future communications needs — from foreign exchange lines, which give you a presence in distant markets, to dedicated fiber-optics links for extremely high-speed computer communications.

Business customers **1-800-483-5000**

CentraNet®

GTE's CentraNet service turns the GTE central office into your business's telecommunications system. Without buying a lot of equipment, you can have a communications system as advanced as the telephone company's. With CentraNet, all the telephone features you select come to you from a digital switch at our central office. The switch is constantly upgraded with the most advanced hardware and software — so your system will always be the latest and best available. And even though CentraNet service is technologically advanced, it's very simple to operate.

Data Transmission

GTE offers many voice and data transmission services. We carefully maintain and upgrade our equipment to ensure the best system for your data transmission needs.

Maintenance Contract

A maintenance contract from GTE will protect your business from costly repairs. In the event you need service, we'll send a professionally trained technician to repair or replace your equipment within 24 hours.

Coin Telephones

Your customers will appreciate the convenience of a coin telephone from GTE at your business. They can stay in touch with their homes or offices, without tying up your business phone.

For more information, call **1-800-483-2646.** If you are interested in customer-owned pay phone service, call **1-800-483-2678.**

Special Services Available for Your Home

If you work at home, GTE has a special line of products and services just for you. They include:

- Call Management
- Answering Services
- Accessibility
- Discount Long-Distance Plans
- Fax Machines
- Data Access/Transport capabilities

Any service can be specially designed to fit your specific needs and ensure that you have the best possible business communication tools.

Customer Information

Your Rights As A Customer

ALLTEL, Inc. wants you to be informed about your rights to information pertaining to telephone service provided under the regulatory scope of the Arkansas Public Service Commission. The Arkansas Public Service Commission requires utilities to provide customers with information pertaining to telephone service. The Commission's Rules are displayed in each ALLTEL location open to the public and shall be provided to anyone upon request.

Service Problems

If you experience service problems, report them promptly to our Repair Service. Repair and replacement of Telephone Company equipment due to ordinary usage or unavoidable accidents are made without charge to you.

If you feel local efforts have been unsuccessful in resolving your problem to your satisfaction, you may call 1-800-572-1671. This toll-free number puts you in touch with a specially trained staff that will analyze and take immediate action on your problem and provide any follow-up necessary to ensure that it is resolved. If you are still unable to resolve the matter to your satisfaction, you may contact the Arkansas Public Service Commission by phone or in writing at: Utility Service Operation, Arkansas Public Service Commission, P.O. Box C 400, Little Rock, Arkansas 72203, 1-800-482-1164.

Toll Restriction 900 Numbers

Where available, 900 toll restriction will be offered to customers at no charge. For more information contact your customer service center.

800-900 Number Privacy

When an 800 or 900 number is dialed from your telephone, your telephone number may be transmitted to the company you have called and may be available to that company's service representative before your call is answered.

Pay Per Call, (900) Services Consumer Rights

The Federal Telephone Disclosure and Dispute Resolution Act provides specific rights to you related to payment for 900 service calls.

You should not be billed for services that are not offered in compliance with federal laws and regulations.

The charges for the 900 service calls may appear on your monthly ALLTEL bill. Payment may be withheld if these charges are disputed within 60 days. While the dispute is being reviewed, no collection activity may occur on the disputed amounts.

If it is agreed to remove the charge from your telephone company bill at the time of verbal contact, and if the provider of the service or its agent later determines that the charge is valid, the company providing the 900 service or its agent, may use their own collection process and additional third party collection companies to collect the amount due.

900 services are non-communications services. Your local or long distance service cannot be disconnected for nonpayment of 900 charges. Failure to pay legitimate charges, however, may involuntarily result in blocking of your access to these 900 services.

If you want to have your access to 900 services blocked, in most areas you can request this service at no charge by contacting your telephone company.

Service Applications, Changes And Discontinuances

Applications for new service, changes in existing service or discontinuance of service may be made at any ALLTEL retail location in person, by telephone or by mail.

Charges for installation of new service and changes in existing service will vary depending on the type of work involved. The one-time charges are:

- Service Order Charge – Work done in receiving, recording and processing information necessary to fulfill your request for new service or changes in existing service.
- Line Connection Charge – Work done in the central office and/or an outside plant to provide each access line for service.
- Trip Charge – Work requiring a trip to the customer's premises.
- Premise Wiring Charge – Work done to install, extend, rearrange or move inside wiring for each equipment connecting point on the customer's premises. This charge also applies to wiring done in advance on the customer's premises.
- Station Connection and Handling Charge – Work done inside the customer's premises for installing, moving, rearranging or changing a telephone, related components or other terminal equipment.

Contact our customer service center for the charges that apply to your service request.

Customer Information

ALLTEL

The following are monthly rates for basic telephone service in this area:

	Russellville
ALLTEL Convenience Pack	$39.95/month**
ALLTEL Convenience Pack w/2nd Line	$64.95/month**
ALLTEL Convenience Pack w/Internet & 2nd Line	$74.95/month**

** Service may not be available in all areas. Please contact the ALLTEL Customer Service Center for details.*

*** The residential rate includes the following features: Caller ID-Name & Number, Voice Mail, Three-Way Calling, Call Waiting, Call Return, Call Selector, Caller ID on Call Waiting, Repeat Dialing, Speed Call 30, Call Forwarding, Preferred Call Forwarding, Selective Call Rejection, Selective Call Acceptance, Remote Access to Call Forwarding. Please contact the ALLTEL Customer Service Center for more details.*

The above rates were correct on the date this directory was compiled. Contact our customer service center for the current charges that apply to your service.

Deposits and Advance Payments

Under certain conditions, a deposit may be required from an applicant for local telephone to guarantee payment for the service. The amount of the deposit generally will not exceed the average amount of one month's local service and two month's long distance service. In lieu of a deposit, you have the option of having a qualified ALLTEL customer sign a written guarantee for the amount of the deposit.

A deposit will earn interest annually. A deposit will be refunded if all bills are paid by the due date for 12 consecutive months and no checks have been dishonored for reasons other than bank error. If telephone service is disconnected, the deposit plus interest will be applied to your final bill.

When you order new service, you may be required to make an advanced payment. Amounts paid in advance will be subtracted from your first month's bill.

Customers Nonlisted-Nonpublished Numbers

Under the FCC rules, your BNA (billing name and address) can be released for non-marketing purposes to an interstate telecommunications provider which (a) is not your presubscribed long distance company, and (b) that does not use ALLTEL to bill and collect for their services.

As a nonlisted/nonpublished customer, you still have the right to request that your BNA not be disclosed in connection with collect calls, third number billed calls and joint use calling card calls. You should know that restricting your BNA will invalidate your joint use calling card, restrict your ability to bill third number calls to your home number and prevent you or others from making collect calls to your home number. The circumstances that may lead to release of your BNA are intended for legitimate billing and collection purposes.

Customer Requested Discontinuation of Service

If you want to have service discontinued, notify our Customer Service Center five days in advance of the date you want service discontinued.

Bill and Payments

Bills should be paid promptly on or before the DUE DATE shown. Bills are delinquent if not paid on or before the DUE DATE.

When a service is suspended for nonpayment, a charge is applicable for restoring service. If you have a question concerning your bill, contact our customer service center. If your service is temporarily suspended for seven calendar days, you will be permanently disconnected and must reapply for service.

What Happens If I Can't Pay My Bill On Time?

We appreciate the prompt payment of your bill, but if you can't pay by the due date, call your Service Representative:

Residential: **1-888-9-ALLTEL**
Business: **1-888-9-ALLTEL**

Preferred Payment Plan

The Preferred Payment Date Plan is available to qualifying residential customers and is intended to enable the company to change a customer's bill payment due date, at the customer's request, to coincide with or follow the customers receipt of a fixed income. Customers who qualify under this plan and pay by the new date will not be considered late on their bill payment.

Customers eligible for the Preferred Payment Date Plan are:

A. Persons receiving Aid to Families with Dependent Children (AFDC), or Aid to the Aged, Blind and Disabled (AABD).
B. Persons receiving Supplemental Security Income.
C. Persons whose primary source of income is Social Security or Veterans Administration disability or retirement benefits.

Customer Information

ALLTEL

Delayed Payment Agreement

A Delayed Payment Agreement is a signed agreement between a qualifying customer and the telephone company. A Delayed Payment schedule is agreed on and can have as many as five payments on the total bill amount.

In signing a delayed payment agreement, the customer also agrees that:

1. Should any of the terms of an agreement be violated, all outstanding charges which have been billed and which are due on the account, immediately become due and payable.
2. Should service on this account be suspended (SHUT-OFF) or completely disconnected as a result of violation of the terms of this agreement, all outstanding charges billed and due plus appropriate reconnection fees shall be paid prior to the restoration of service.
3. Should any of the terms of this agreement be violated, an appropriate security deposit may be required before service will be continued.
4. The customer shall be subject to immediate suspension (SHUT-OFF) and/or complete disconnection, without prior written notice, if:
   A. Future charges on this account are not paid in full on or before the due date of each particular bill, for the term of the agreement, and/or
   B. Any of the terms of the delayed payment arrangement is violated.
5. ALLTEL does not have to enter into a second delayed payment agreement if the customer currently is bound by a delayed payment agreement.
6. ALLTEL must receive a reasonable portion of the overdue bill as a down payment by the close of business on the third business day after making arrangements for the delayed payment agreement. (Not more than 1/4 of the overdue bill.)
7. The customer shall be allowed to make equal installment payments for at least three months from the date of the down payment. The down payment is not considered an installment payment.
8. If the customer can substantiate a change in the ability to pay resulting from a serious medical condition or the loss of a major source of income, ALLTEL must document its good faith effort to re-negotiate one time during the period of the agreement. The customer loses this right if any term of the delayed payment is not kept. A renegotiated agreement is not a new delayed payment agreement.
9. The customer does not give up the right to complain to the Commission by signing a delayed payment agreement or renegotiated agreement.

Shut-Off Notice

If your bill is not paid by the DUE DATE, a SHUT-OFF NOTICE will be mailed to you. Your service may be suspended if the bill is not paid by the last day to pay printed on the notice.

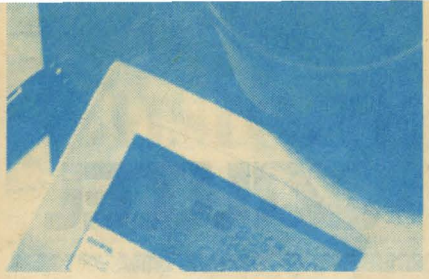
A residential customer may postpone suspension of service when a certified medical emergency exists or when you have signed a Delayed Payment Agreement. You may also make arrangements with ALLTEL to avoid suspension of service during an extended period of absence from your residence.

OPTIONS AVAILABLE TO AVOID SHUT-OFF FOR EXTENDED PERIOD

Any bonafide reason requiring the customer to be away for an extended period of time, such as:
Armed Services Duty
Extended Vacation
Temporary Job Transfer
(accompanied by a letter from the employer), the following options are available:
a. Advance Payments
b. Billing Address Change

AVOIDING SHUT-OFF WHEN SERIOUS MEDICAL CONDITION, ELDERLY CUSTOMER OR HANDICAPPED

1. In situations where loss of service may cause a substantial risk of death or gravely impair health, the telephone company provides a Medical Termination of Service Certificate that must be filled out by the customer and forwarded to their physician for completion. This form is limited to 30 days; 30-day renewal extensions may be requested by the physician.
2. Any residential customer who is 65 or older or handicapped may register with the Company to participate in a special program. ALLTEL will make two attempts to personally contact registered customers at least 72 hours before suspending service to a past-due account. If the attempt to contact is successful, ALLTEL will explain all options available to avoid suspension. The same service will be provided when a registered customer contacts ALLTEL regarding an overdue account.



Calling Instructions

Directory Assistance

Need assistance finding a local number?
Customers within Pope County,
please call **411**
Customers outside Pope County,
please call **1-411**

If you need an 800/877/888 number, please access the Internet at **www.555-1212.com**

If you have a Text Telephone (TTY), please call, toll-free, **1-800-855-1155** for Directory Assistance. However, applicable long-distance and operator service charges will apply on operator-assisted calls. (Please see page 10 for GTE Directory Assistance charges.)

Local Calling

To make a local call you don't need to dial "1" + area code. Simply dial the seven-digit telephone number. Your local (toll-free) calling area includes all the customers in your exchange plus the exchanges indicated in the chart below.

Busy Line

If the number you're calling is always busy, you can ask the operator to check the line to see if the number is working properly. If you have an emergency, ask the operator to interrupt the conversation. Operator charges might apply. To ensure that you don't miss emergency calls — even when you're on the phone — check into GTE's optional Call Waiting or Voice Mail services.

YOUR LOCAL CALLING AREA	
If your prefix is:	**You may call the following prefixes toll-free:**
Atkins (641)	**284, 293, 331, 498, 641, 858, 880, 890, 964, 967, 968**
Centerville (576)	**229, 576**
Clarksville (705, 754, 979)	**292, 497, 705, 754, 885, 979**
Dardanelle (229)	**229, 576**
Dover (331)	**284, 293, 331, 498, 641, 858, 880, 890, 964, 967, 968**
Hartman-Coal Hill (497)	**292, 497, 705, 754, 885, 979**
Hector (284)	**284, 293, 331, 498, 641, 858, 880, 890, 964, 967, 968**
Lamar (885)	**292, 497, 705, 754, 885, 979**
London (293)	**284, 293, 331, 498, 641, 858, 880, 890, 964, 967, 968**
Russellville (498, 858, 880, 890, 964, 967, 968)	**284, 293, 331, 498, 641, 858, 880, 890, 964, 967, 968**
Salus (292)	**292, 497, 705, 754, 885, 979**

Calling Assistance For People With Hearing or Speech Disabilities

The Americans with Disabilities Act of 1990 requires all states to provide access to nationwide Telecommunications Relay Services (TRS). Through the TRS, callers using Text Telephones (TTYs/TDDs) are able to communicate with people who use standard voice telephones. TRS communication assistants relay telephone conversations verbatim simultaneously between TTY users and non-TTY users. The Arkansas Relay Service operates 24 hours a day, seven days a week. Employees of the relay service are not allowed to disclose any information received during the relay of the call. Calls made through the relay service are confidential. Operators relay entire conversations, leaving nothing out. There is no charge to use the relay service. Discounted rates may apply to calls placed to telephone numbers within your LATA. Calls to telephone numbers outside of your LATA will be billed at the long-distance provider's regular rates. (Please see pages 36-37 for LATA information.)

The toll-free number for the Arkansas Relay Service is **1-800-285-1131** for TTY users. If you do not have a TTY, but want to use the Arkansas Relay Service to call someone who does, call **1-800-285-1121.** If you are using the relay service to make a long-distance call, tell the operator which long-distance company you want to handle your call. Some long-distance companies have their own access numbers for relay services. Contact your long-distance provider for more information.

Customers with TTYs can use the Arkansas Relay Service to call their local telephone service provider. Here's how: Call the Arkansas Relay Service at **1-800-285-1131.** Tell the operator the number you wish to call. (Please see pages 2-4 for a list of contact numbers.)

Using a Text Telephone (TTY) device, someone with hearing or speech disabilities can call the TTY Communication Assistance Operator, toll-free, at **1-800-855-1155** for assistance. Calls to this number are free, but long-distance and operator assistance charges will apply. The TTY operator can help with:

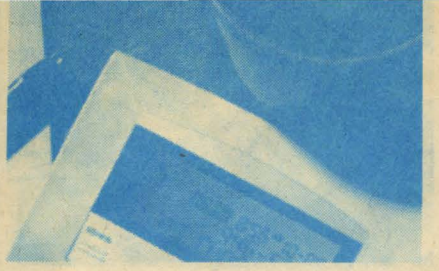
- Operator-Assisted Calls
- Collect Calls
- Calling Card and Third-Number Billing Calls
- Person-To-Person Calls
- Directory Assistance Requests
- Calls From Motels and Hotels
- Line Interruptions
- Busy Line Verifications

Customers with certain disabilities may be exempt from Directory Assistance charges. They may also qualify for special rates on out-of-area direct-dialed and station-to-station calls. For more information, call your local telephone service provider.

Long-Distance Calling

Use area codes when making calls to locations outside of your local calling area. Refer to the maps and listings starting on page 38 to locate the area codes you need. If the city you want is not listed, contact your long-distance provider.

To make a long-distance call without operator assistance, dial "1" + (area code) + number. You can save money by dialing your calls direct without involving the operator. Charges for long-distance calls are set by your long-distance provider. Contact your provider for information about rates and discounts.



GENERAL INFORMATION

To use your GTE Calling Card, dial "0" + (area code) + number. You will hear a special tone indicating you should enter your Calling Card number. If you are calling from a rotary phone, wait for the operator to come on the line to assist you.

For operator assistance, dial "0" + (area code) + number. When the operator answers, explain the type of call you want to make. Charges for operator-assisted calls begin once the operator connects you to the person you are calling and leaves the conversation. These charges are in addition to the direct-dialed rate for the call. You can ask the operator to tell you the time and charges for the call. Please see the following for types of calls:

Station-to-Station: Call station-to-station if you want to talk to anyone who is likely to answer the phone at the number you're calling.

Person-to-Person: Calling person-to-person is an efficient use of your long-distance dollars. It ensures that you will only be charged for the call if the particular person or specific extension you are calling is available.

Collect: Collect calls are especially convenient if you are calling from a pay phone and you don't have the required change or a Calling Card. The operator will ask the person you are calling to accept charges for the call.

Third-Number Billing: What if you are in someone else's home or office and need to make a long-distance call but want the charges to appear on your own telephone bill? You can request third-number billing from the operator. Third-number billing is also useful if you are calling from a pay phone and do not want to call collect. However, when you request third-number billing from any phone, someone must answer the third number and approve the call before it can be completed.

Long-Distance Service Providers

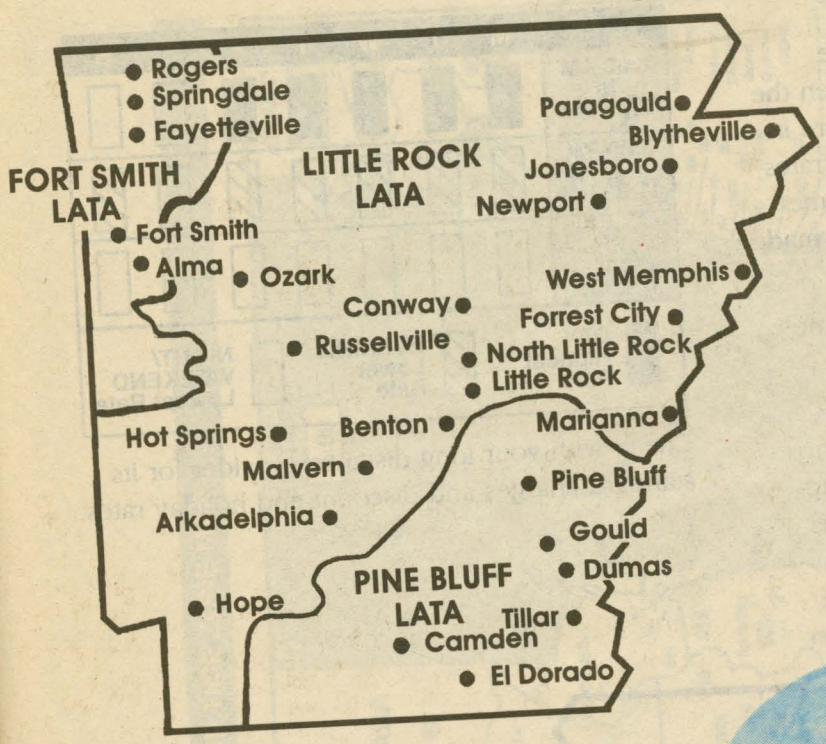
In addition to area codes, all states are divided into one or more geographic regions called LATAs (Local Access and Transport Areas). A toll call from one point to another within a LATA is called an intraLATA or short-distance toll call. A toll call to a point outside a LATA is called an interLATA or long-distance toll call.

"Equal Access" now allows you to choose the company you want to handle your short and long-distance toll calls. You can choose one company to handle both types of calls or a different company to handle each. Once you have notified your local service provider of your choice, all of your toll calls will be handled automatically by the company you chose whenever you dial "1" + (area code) + number to make the call.

For more information about Equal Access, call our Customer Contact Center at one of these toll-free numbers:

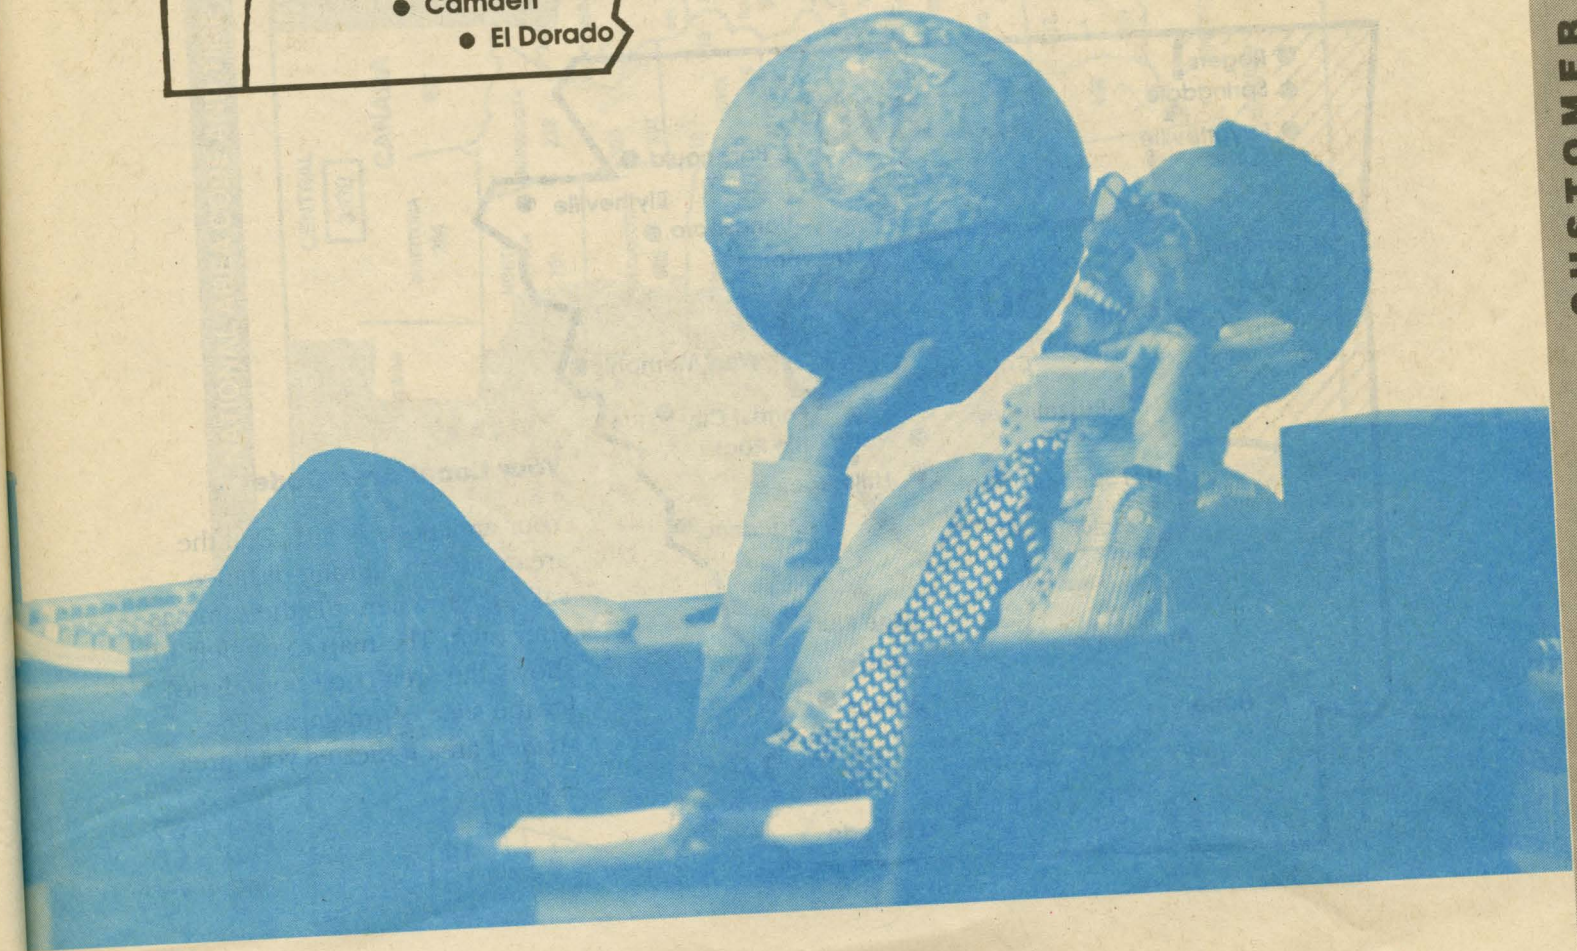
Residential customers **1-800-483-4000**
Business customers **1-800-483-5000**

Text Telephone (TTY) customers call GTE through the Arkansas Relay Service. (Please see page 35 for calling instructions.)



LATA Boundaries

The map to the left shows Local Access Transport Area (LATA) boundaries for the state of Arkansas. For an explanation of LATAs, see the previous page.

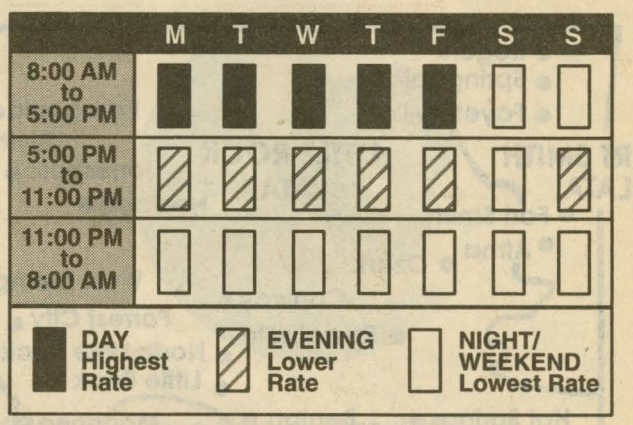


Long-Distance Rates

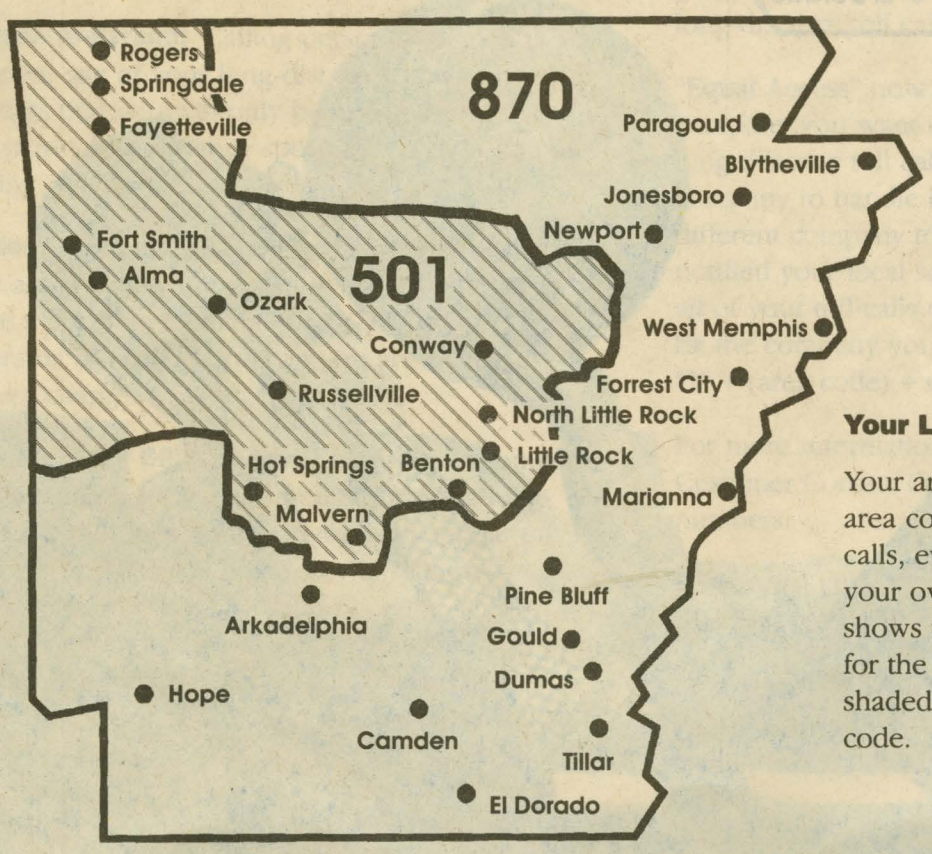
Rates for long-distance calls are based on the length of the call and on the time of day when the call is placed. Charges start at the rates that are in effect at the time your call is connected. The rates will change if the call continues into a new time period. Discounts are usually applied to calls made in the evening, at night, and on weekends.

The chart to the right shows an example of time periods and the rates that may apply.

GTE also has holiday rates for New Year's Day, July 4th, Labor Day, Thanksgiving Day, and Christmas Day. On these holidays the evening rate applies all day on direct-dialed calls and the lower night and weekend rates still apply when appropriate.



Check with your long-distance provider for its standard charges and discount and holiday rates.



Your Local Area Code

Your area code is 501. Dial the area code on all long-distance calls, even when it is the same as your own. The map to the left shows the area code boundaries for the state of Arkansas. The shaded area indicates your area code.

International Calling

Your international calls automatically go through the long-distance provider you selected for your telephone service. If you want, you can use another long-distance company by dialing that company's access code before dialing the number you're calling. If you have a calling card it may be used to make international calls from the United States and to call back to the United States from some foreign countries. (Your GTE Calling Card cannot be used to make calls between foreign countries.)

Here's how to place an international call: To dial direct, dial "011" + country code + city code + number. Calls to Canada, Puerto Rico, and many Caribbean countries are dialed the same way as long-distance calls within the United States. In other words, to call these countries you only need to dial "1" + (area code) + number. No country, city or international access codes are required.

It may take a while for international calls to connect; you can expect to wait at least 45 seconds (after you've finished dialing) for the ringing to start. If you need operator assistance, dial "01" + country code + city code + number. The operator will ask what type of call you are making. (Please see page 36 for definitions of call types.)

Frequently used country codes are listed below. For information about specific country and city codes, please contact your long-distance provider.

Telephone Safety

Important Safety Tips

There are three telephone safety rules that you should keep in mind at all times — even when using cordless and cellular phones.

Do Not Use The Telephone Near Water. For example, it is unsafe to use the telephone while you are bathing, washing dishes, or in a swimming pool. Contact with water could cause electrical shock.

Do Not Use Your Telephone To Report A Gas Leak. Telephones contain electrical contacts that could generate a tiny spark when you lift your handset. While unlikely, this spark could trigger an explosion if gas is present.

Avoid Using The Telephone During An Electrical Storm. Although protective measures are used to limit abnormal electrical surges from entering your home, absolute protection is impossible. There is a remote risk that you could receive a dangerous electrical shock from lightning while using the telephone during an electrical storm.

Your telephone equipment can be protected against a voltage surge just as electrical equipment is protected from power surges. Primary overvoltage protection is furnished by your local telephone service provider. (Secondary overvoltage protection against damage to equipment such as modems and answering machines is your responsibility.) For more information about voltage surge protection, contact your local telephone service provider.

Underground Cables

You play a crucial role in helping us protect underground cable. Any household chore that involves digging — planting a tree or installing a fence, for example — can lead to damaged cable, which results in disruption of service for many customers. It's very easy to avoid such problems. Simply call Arkansas One Call, **1-800-482-8998,** at least 48 hours in advance (excluding weekends and holidays), before you dig or drill.

Be prepared to tell us the exact location of the proposed excavation (including the county, city or township, section and 1/4 section number), the type of work you'll be doing, when you plan to start, and how long you think it will take. We'll also need your name and your company's name (if applicable), your address (or company's), a phone number where you can be reached, and the best time to call you back. Following your call, we'll check the location and let you know where the cables are.

Customer Rights & Responsibilities

Telephone Solicitors

A telephone solicitor is a person who calls to ask you to buy something or to make a donation. State and federal laws require that telephone solicitors who call residences must: identify themselves and the business they represent by name, identify the purpose of the call, and provide a telephone number where the solicitor or the company can be reached. Additionally, a telephone solicitor can't legally call a residence before 8:00 a.m. or after 9:00 p.m.

Automatic dialing announcing devices must be disconnected from your line within 30 seconds of the termination of the call.

Keep in mind these requirements do not apply to telephone solicitations made at your request, solicitations made in connection with an existing debt or contract, or calls from a telephone solicitor with whom you have a prior or existing business relationship.

If you use a credit card to purchase goods or services from a telephone solicitor, the seller must (unless the seller is a public charity, an organization exempt from federal income tax under the Internal Revenue Code 501 [c] [3]):

- Offer a full refund for the return of undamaged and unused goods within seven days after you receive the goods or services (the seller must process the refund within 30 days after you return either the merchandise or cancel an order that you have not received)
- Provide you with a written contract fully describing the goods and services being offered, the total price charged, the seller's name, address, and phone number, and any terms and conditions affecting the sale

If you want to reduce the number of at-home telephone solicitation calls that you receive from national companies write to:

Telephone Preference Service
Direct Marketing Association
P. O. Box 9014
Farmingdale, New York 11735

Threatening or Obscene Phone Calls

If You Receive Obscene or Nuisance Calls, Follow These Suggestions:

- Hang up
- Give no information
- Advise children to do the same

Making threatening, obscene, or nuisance calls is a violation of state and federal laws. If you receive a threatening call, report it immediately to the police. Many of GTE's optional phone services — **including Caller ID Services, Call Block, and Call Tracing —** are available in some areas and can help prevent annoying calls. Often, changing your telephone number will resolve the problem.

Call the GTE Nuisance Call Bureau, toll-free, at **1-800-257-2969** for more information or assistance.

Recording Phone Calls

It is illegal to record a telephone conversation without the consent of both parties prior to the recording of the conversation. Prior consent must be obtained in writing or be part of, and obtained at the start of the recording.

700/900/976 Numbers

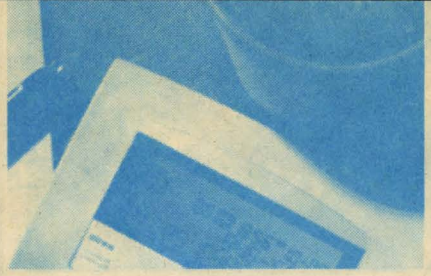
Telephone numbers beginning with 700/900/976 provide information to callers at a cost-per-call basis. Examples could be road reports, dial-a-joke, horoscopes, stock market reports, or ski conditions. You will be charged for these calls at the rate established by the information provider. Your local telephone service provider bills you, on behalf of the provider, for these charges. If you don't want anyone in your home making 700/900/976 number calls, contact your local telephone service provider The first time you request blocking of 700/900/976 number calls, there is no charge. If you cancel the blocking and then request to have it reinstated, you may be charged.

To cancel 700/900/976 number blocking, you must submit written authorization to your local telephone service provider.

Customer Billing Rights for 700/900/976 Number Calls

Your local telephone service provider furnishes billing services for long-distance companies and companies offering 700/900/976 number information services. The federal Telephone Disclosure and Dispute Resolution Act gives you the following rights regarding 700/900/976 number calls and telephone-billed purchases:

- You do not have to pay for calls to 700/900/976 numbers that do not follow federal regulations.
- You have the right to question charges for billed telephone purchases or calls to 700/900/976 number information service providers. This process begins when you call or write your local or long-distance telephone service provider, using the telephone numbers listed on your long-distance bill page, within 60 days of receiving the statement showing the charges in question.
- Should you question charges on your telephone bill, your local or long-distance telephone service provider must respond to your request within 40 days unless the dispute is resolved within that time.
- If a billing error has occurred, your local or long-distance telephone service provider must correct the error and notify you of the correction. Your account will be credited for the disputed amount pending investigation. The company providing the service, however, may attempt to collect the disputed amount even in cases where a billing error has occurred. Your local or your long-distance telephone service provider will furnish you with the name, telephone number, and address of that company so you can contact them directly.
- If there is no billing error, your local or long-distance telephone service provider will furnish you a written explanation of why no error was found and, upon request, provide you with documentary evidence of why you were billed for the charges in question. You will have a minimum of ten days to pay the disputed amount. Failure to pay such amount may be reported to a credit reporting agency or be subject to collection. Involuntary blocking may also be imposed so that you will be unable to make 700/900/976 number calls from your telephone.



- Neither your long-distance nor your local telephone service may be disconnected if you choose to withhold payment for telephone-billed purchases or calls to 700/900/976 numbers. However, you must continue to pay for all charges on your bill that are not part of the disputed amount.
- If your local or long-distance telephone service provider fails to follow the billing and collection procedures mandated by federal regulations, any disputed amount up to $50 may be forfeited to the customer.

Should you have questions regarding any of this, please call your local or long-distance telephone service provider using the telephone numbers listed on your bill.

Other Telephone Service Laws and Practices

Throughout the Customer Info Guide we've told you about many of the rules and regulations that govern telephone service. Here are some other important things you should know:

Your local telephone service provider furnishes telephone service without regard to race, nationality, color, religion, sex, disabilities, or marital status. **Your local telephone service provider is regulated by the Arkansas Public Service Commission which requires GTE to provide the consumer information found in the Customer Info Guide.** A complete copy of rules and regulations governing telephone service is available through your local telephone service provider. Please call your local telephone service provider for copy requests.

To reach the commission, you may write or call:

Arkansas Public Service Commission
1000 Center Street
P. O. Box 400
Little Rock, AR 72203
501-682-1718 or 1-800-482-1164

The rates and practices for telephone service now in effect are subject to change. A schedule of current rates is available at the Arkansas Public Service Commission's state office or from your local telephone service provider. All telephone numbers are owned by your local telephone company, which has the right to change any number as may be required.

No automatic dialing announcing device can be connected to the network unless it complies with Federal Communications Commission (FCC) rules. Autodialers used to transmit artificial or prerecorded voice messages should automatically release the called party's line within 5 seconds of that party's hang-up signal reaching the caller's dialing system. For additional information contact your local telephone service provider.

For your protection, your local telephone service provider is most likely to detect fraudulent calls. Defrauding or attempting to defraud a telephone company of its lawful charges is prohibited by state and federal laws.

When you call 800/877/888 and 700/900/976 numbers, the telephone number you're calling from may be transmitted to the company you called. Your number could be available to that company's service representative before your call is answered.

Intentional and/or willful damage or destruction to coin telephones is classified as criminal mischief. Punishment could include a prison sentence of two-to-ten years and/or a fine up to $10,000.

When you call 9 1 1, your phone number is either displayed at the answering center or your call is traced. This enables emergency teams to locate you even if the call gets interrupted before you can give your location. If you want to keep your number private, call the seven-digit number listed for your locality's police/sheriff department in the Government Pages of this directory.

If you have a problem reaching an emergency number, dial "0" for the operator. Tell the operator the number you are trying to reach and/or the type of help you need. Also, be prepared to provide the number from which you are calling, the community name, and the street address.

Emergency Preparedness

Emergency Procedures

Emergencies and disasters can occur anytime, anywhere. Some are primarily seasonal and allow for certain preparations; others occur without warning. Planning ahead and making provisions for your family's needs can make a big difference in your ability to cope with emergencies. Detailed information on emergency preparedness is available from the American Red Cross and city and county agencies.

Floods and Flash Floods

Floods claim an average of 263 lives every year. Flood waters only one foot deep can sweep you off your feet. If you live in a flood-prone area, it is important to be prepared in case flooding does occur. Determine your nearest safe area above flood waters. Develop an evacuation plan. Remember that many roads, bridges, and existing drainages may be swept away by flood waters.

A flood WARNING means flooding is occurring or will occur soon. If the National Weather Service issues a flood WARNING for your area, you should:

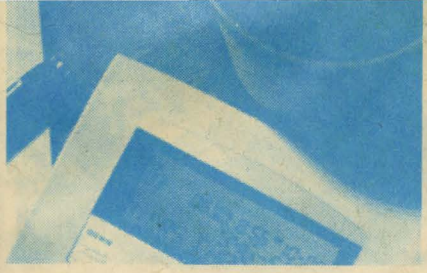
1. Turn off your utilities if your home is likely to be flooded.
2. Fill your car's gas tank.
3. Evacuate if you are told to do so. (See the following section on evacuation procedures.)

Flash floods are rapidly developing floods that can happen with little or no warning. Flash floods are most often caused by intense rainfall, severe thunderstorms, or breaks in a dam, levee, or dike. A flash flood WARNING means you may have only a very short time to escape. A flash flood can happen so rapidly that you may not even get a warning. If the National Weather Service issues a flash flood WARNING for your area, or if you suspect a flash flood is occurring, you should:

1. Leave low-lying areas immediately.
2. If you are driving, stay away from creeks and open ditches.

If your car stalls in rapidly rising waters, abandon it IMMEDIATELY and climb to higher ground. The rushing waters from floods and flash floods are extremely dangerous. Remember:

1. Police barricades are there for your protection. DO NOT DRIVE AROUND THEM.
2. Flood waters covering roads and bridges have more force and power than you think.
3. Walking or driving through flood waters is the most dangerous thing you can do.



Evacuation Procedures:

You will receive instructions to evacuate the area in one of the following ways:

1. The Emergency Alert System (EAS).
2. A uniformed agent of law enforcement or the fire service will contact you.
3. Mobile sirens, police, fire or other PA systems will be used to alert you.

Shelters will be available for residents who cannot stay with friends or relatives in other areas. The Red Cross has prearranged shelter sites throughout the community. If shelters need to be opened for emergency housing, listen to the EAS for the exact locations.

If there is time, take a moment to gather a few important items you may need. Do this as quickly as possible and leave as soon as you can.

If You Can, Bring These Items With You:

1. Prescription drugs
2. Food — if needed for a special diet
3. Eyeglasses or contact lenses
4. Change of clothing
5. Personal items — toilet articles, documents, photo albums
6. Bedding — sleeping bag, pillow, blankets
7. Baby or child supplies — diapers, food, toys
8. Money, credit cards, checks
9. Proper identification
10. Pets — provisions will be made for pets. They will stay in separate housing, but bring food if possible.

Tornadoes

If you see or hear a tornado, seek shelter immediately. Bring a portable radio for news and weather updates. Lie flat and protect your head and eyes.

Here are some guidelines for seeking shelter:

In homes: Stay away from windows, doors, and outside walls. Go to the basement. If the house doesn't have a basement, go to a first-floor bathroom, closet, or another room at the center of the house. If possible, get under heavy furniture or cover your head with blankets or pillows.

In schools: Stay away from windows and large areas such as auditoriums and gymnasiums. Go to the basement. If there is no basement, go to a small interior room or a hallway on the lowest floor.

In public buildings: Stay away from windows. Don't go to your car. Go to a designated shelter area or to an interior hallway or a small room on the lowest floor.

In mobile homes: Get out immediately. If there isn't a reinforced building or underground shelter nearby, take cover in a ditch or valley.

Nuclear Planning and Response

What is radiation?

Everything on earth is made of tiny particles called atoms. Some atoms give off energy. This energy is called radiation. Radiation is a form of energy that moves in waves or particles. It is found throughout the natural environment in the form of light, heat, and radio waves. Nuclear radiation comes from radioactive material, such as uranium. There are also naturally occurring radioactive atoms in everything in the environment, even your own body. While you cannot hear, see, feel, taste, or smell radiation, it can easily be detected with special equipment. Radiation is a very natural part of our daily world. We all receive very small amounts of radiation each day from the air, food, the earth, and building materials. We are also exposed to radiation from other sources such as x-rays used by doctors and dentists and from consumer products such as TV sets. The amount of radiation that a person gets is measured in millirems. In Arkansas, the average radiation exposure from naturally occurring and man-made radiation is up to 180 millirems per year. Most studies indicate that radiation exposure of up to several thousand millirems per year, results in no measurable effect.

What is an emergency?

An emergency at a nuclear power plant could be caused by many things. State and local officials will be notified of any emergency that could cause the nuclear plant to become unsafe. There are four classes of emergencies at nuclear power plants:

NUE — notification of unusual event is the least serious emergency class. It means that something out of the ordinary has happened. People living in the area should not have to take any action.

ALERT — this class means plant safety could become a problem. State and local officials will go to their emergency centers to follow the situation. The general public should not have to take any action.

SAE — site area emergency, means the public might be affected. You should hear the Emergency Warning System. Tune in to your local radio stations for information. State and local officials will take action to protect those living in the area.

GE — general emergency, is the most serious emergency class. State and local officials will take action to protect people in the area. Stay tuned to your local radio stations for instructions.

Within 15 minutes of the time an emergency is declared at Arkansas Nuclear One, Entergy Operations, Inc. must notify state and local officials. Through use of the Emergency Warning System, state officials can notify the public of an emergency within 15 minutes. You will hear a steady siren signal lasting about 3 minutes.

PLEASE STAY CALM!

When you hear the sirens, listen to one of these local radio stations for information:

KARV	610	AM	Russellville
KCAB	980	AM	Dardanelle
KLYR	1360	AM	Clarksville
KMTC	91.1	FM	Russellville
KXRJ	91.9	FM	Russellville

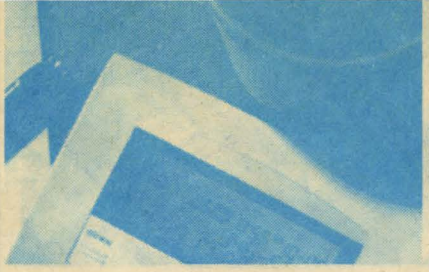
KWKK	100.9	FM	Dardanelle
KCJC	102.3	FM	Russellville
NOAA Weather Radio Frequency			
	162.525		Russellville

*An **Emergency Instruction Booklet** has been mailed to everyone living within 10 miles of Arkansas Nuclear One. If you did not receive one, please contact our office for a **FREE** copy. (Please see page 56 for our address.)*



GENERAL INFORMATION

Evacuation Procedures

Look at the map on page 57 and find out which Care Center you would go to and how you would get there. If an evacuation begins, don't rush, you'll have time. When you leave home, tear out the "NOTIFIED" tag from the back of your Emergency Instructions Booklet. Attach the tag to the front of your home so officials will know you have gone. As you leave the area, tell a neighbor about the evacuation. They may not know about the evacuation and may need a ride to a Care Center. You may need to stay at the Care Center for two or three days. This will depend on conditions at the plant. Listen to the radio for current information.

Care Center Locations

Morrilton	Morrilton High School
Hector	Hector High School
Clarksville	Clarksville High School
Paris	Paris High School
Danville	Danville High School

Items to Take to the Care Center

- change of clothing
- towels & washcloths
- personal identification
- soap & shaving equip.
- flashlight & batteries
- blankets & pillows
- sanitary supplies
- medications
- baby supplies
- portable radio

Home Safety Tips

Sheltering means to stay indoors. Close all doors and windows. Turn off sources of outside air. Close the fireplace flue if not in use. Use telephones only for medical, fire, or extreme emergencies. Remain indoors until told it is safe to go out. If traveling, close auto windows and vents and put air conditioner on maximum, if needed. Listen to your local radio station for further instructions.

School Evacuation Procedures

Schools will be notified before the general public and students will be taken to a Care Center. Parents should not attempt to pick up their children at the schools since this will create a traffic problem. Once children are registered at the Care Center, they may leave with a parent or legal guardian. If it is necessary, students will be monitored for radioactive contamination.

Special Assistance Information

Are you:

- hearing disabled/hard of hearing/deaf
- unable to hear a siren in your location
- mentally or physically challenged

Or would you:

- need a ride to a Care Center
- need special notification

If one of these applies to you, fill out a "SPECIAL NEEDS INFORMATION" form. If you don't have one, contact:

Arkansas Department of Health
Nuclear Planning and Response Program
P. O. Box 1749
Russellville, AR 72811-1749 or
Phone: (501) 968-7171 or (800) 422-6630

Our office is located at 305 South Knoxville in Russellville and office hours are 8:00 a.m. to 4:30 p.m., Monday through Friday, excluding holidays. To report siren problems, NOAA Weather Radio Problems, or any urgent concern, you may call the above telephone numbers 24 hours a day.

Severe Weather

The siren system around Arkansas Nuclear One can be used to alert the public of severe weather. This can be done by local officials if they feel it is necessary.

Livestock Information

A free pamphlet is available from Nuclear Planning and Response. Use the information above to contact our office.

GTE

THE WORLD OF GTE DIRECTORIES

The Leader in Linking Buyers and Sellers in Communities and Around the World

Virtually Everything

Now you can find virtually everything you need to make life easier, all from just one company. GTE Directories leads consumers to local products and services in its Yellow Pages directory. **It's simply the easiest-to-use, best, most complete local telephone directory.**

Everything Virtually

And for millions of national business listings, consumers around the world can log on to GTE's SuperPages℠ services on the Internet. You can search SuperPages by business type, location, products, brand names — any number of ways. Find up-to-date information, online maps and customized door-to-door driving directions. Or even buy products online. **It's super-easy at superpages.com.**

Whether you're a consumer looking to buy, or an advertiser wanting to sell, GTE's directories and online services make life easier. And we always give you lots of options, both in our phone books and online.

White Pages Listing Options for Homes and Businesses

Generally, your name, address, and phone number appear in your White Pages listing. You can ask for an alteration, such as listing just your name and phone number, or using an initial instead of your full first name. You will be listed once in the White Pages without charge. The following options are also available (additional charges will apply):

Additional Listings: Even if your telephone service is in someone else's name, you can request an additional directory listing in your name. Other family members can be added to your listing. Additional listings can also give someone who is already listed extra exposure.

Non-Listed Service: You can omit your listing from the White Pages but retain it in our Directory Assistance records.

Non-Published Service: For privacy, you can omit your listing from the White Pages and Directory Assistance records.

Call GTE's Customer Contact Center for information about changing your listing:

Residential customers **1-800-483-4000**
Business customers **1-800-483-5000**

Text Telephone (TTY) customers call GTE through the Arkansas Relay Service. (Please see page 35 for calling instructions.)

Find GTE's online directory at superpages.com on the Internet.

We make every effort to assure that the listings in our directories are accurate, but GTE assumes no liability for charges resulting from errors or omissions. If you are aware of an error or problem, please call one of GTE's Customer Contact Centers listed on the previous page.

Yellow Pages Options For Advertisers

Your company receives a free Yellow Pages listing, under the category of your choice. You can enhance this basic listing with Yellow Pages advertising. For more information, call the toll-free numbers listed below to talk with your local GTE Yellow Pages sales office or speak with a GTE Yellow Pages customer service representative:

Sales **1-800-621-5958**
Customer Relations **1-800-555-4833**

Internet Options For Advertisers

Does your business advertise on the Internet? GTE's SuperPages service offers a number of on-line advertising options to help you get online and down to business. For more information call **1-800-428-8722.**

GTE Directories

Whether you're a buyer or a seller, using phone books or searching online, GTE Directories is your best option.

GTE Directories is backed by the integrity and resources of GTE, one of the largest telecommunications companies in the world.

GTE Directories has been publishing telephone directories for over 60 years. GTE Directories publishes approximately 2,400 directory titles with a total circulation of 80 million copies in the United States and 14 other countries.

Linking Quality to Customer Service

Whether we're producing Yellow Pages or Web Pages, one thing remains the same — our commitment to quality and the needs of our customers. In fact, GTE Directories received the 1994 Malcolm Baldrige National Quality Award in the Service category. GTE Directories is the only directory publishing company to win this prestigious award which recognizes U.S. companies that excel in quality management and quality achievement.

ANY DIRECTORY, ANY TIME.

You can order any copy of GTE's directory
any time of day, seven days a week by calling

1-800-888-8448 or find us on the Internet at **http://www.gte.com/Orderbook**

EMERGENCY SERVICES & REPAIRS
501 967-2018 or 800 967-2018

Notes:

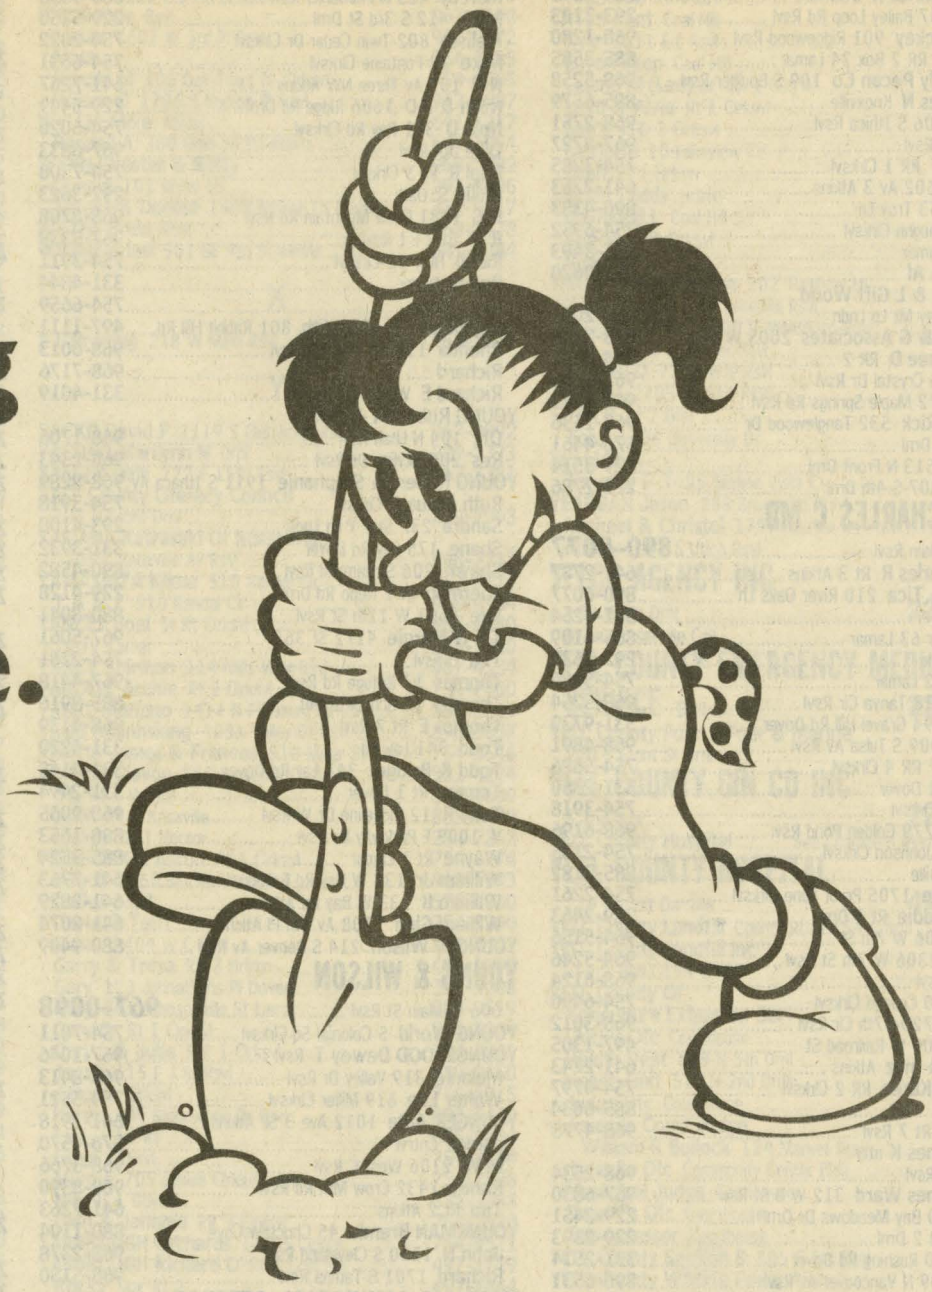
Don't go digging up trouble.



Before you do any extensive digging or construction on your property or public lands, please give your phone company a call. They'll let you know if you'll run into any of their telephone lines. All too often, private home owners and construction crews unintentionally dig up land where lines and cables are located. This sometimes results in costly damage or destruction. So let's work together to avoid needless disruption of telephone service in our community.

Call Before You Dig 1+800 482-8998

(You must give 48 hours advance notice excluding weekends and holidays.)

The following information will need to be provided by the customer:

- County, City or Township
- Section & ¼ Section No.
- Caller's name and firm
- Can be reached phone No.
- Location of proposed excavation
- Starting time and date
- Best time to call
- Type and extent of work
- Firm Address

YELLOW PAGES INDEX

EVERYTHING FROM A PARAKEET TO A PAIR OF SHOES. Looking for something specific in the Yellow Pages? No matter what you need, from a pet bird to a wingtip, the Yellow Pages Index has page numbers and convenient cross-references that will point you right to it.

* Advertisers appearing in the Yellow Pages section under some categories may be required to possess certification or licensing required by the state, county or other government entity. We urge consumers with questions about legal compliance to look for the appropriate government agency in the government listings of this directory.

Does your current advertising work harder?

Did you know that businesses lose a third of their customers every year? If you don't want to become part of that statistic, you need to work hard to keep your existing customers and build your business by acquiring new ones.

To achieve this, you need advertising that works 24-hours a day, 7 days a week, 365 days a year. You need the GTE Yellow Pages. Why? Because the Yellow Pages is in nearly every home and business. So it's easy to understand why it generates over 18.6 ***billion*** referrals a year.

Or you can advertise on the internet with GTE's SuperPages® at www.superpages.com. It's a place where thousands of affluent and eager shoppers flock every day ready to buy.

The GTE Yellow Pages. Nothing works harder. 24. 7. 365.

Get an Idea™. Use GTE's Yellow Pages directory.

Take the chase out of your next purchase.

To make your search easier, go to the **Yellow Pages Index** at the beginning of the Yellow Pages. It lists every heading covered in GTE's directory.

GTE

It redials busy numbers for busy people.

When you get a busy signal, dial *66. The **GTE *66** feature monitors the line up to 30 minutes and calls you when the line is free — so you're free to do more important things than redialing.

GTE

Charges apply. Not available in all areas.

Find gourmet coffee instantly.

Whatever kind of business you're looking for, you'll find it faster with GTE's Yellow Pages. It's the easiest directory to use.

GTE

With GTE Caller ID you don't have to answer to just anybody.

GTE Caller ID lets you know who's calling before you pick up the phone. With Caller ID you'll know if it's someone you want to speak to or not. To order, just call GTE.

Stand out where people start out.

Advertise in

GTE's Yellow Pages directory.

How to have a second phone line, without a second phone line.

When you're on the line with one person, **GTE Call Waiting** lets you take a call from a second person, too. To add this service to your phone, don't wait to call GTE.

GTE

Available in most areas.

24.7.365.

Does your current advertising work harder?

Did you know that businesses lose a third of their customers every year? If you don't want to become part of that statistic, you need to work hard to keep your existing customers and build your business by acquiring new ones.

To achieve this, you need advertising that works 24-hours a day, 7 days a week, 365 days a year. You need the GTE Yellow Pages. Why? Because the Yellow Pages is in nearly every home and business. So it's easy to understand why it generates over 18.6 ***billion*** referrals a year.

Or you can advertise on the internet with GTE's SuperPages® at www.superpages.com. It's a place where thousands of affluent and eager shoppers flock every day ready to buy.

The GTE Yellow Pages. Nothing works harder. 24. 7. 365.

When time is money,

your GTE Yellow Pages

saves you both.

Cafe Santa Fe
SOUTHWEST RESTAURANTS
THE FLAVOR OF SANTA FE

PERHAPS MORE THAN ANY OTHER CITY IN AMERICA, SANTA FE, NEW MEXICO IS A CITY OF MYSTERY, HISTORY, AND ROMANCE. DUBBED "THE CITY DIFFERENT", SANTA FE IS THE SECOND OLDEST CITY IN AMERICA..... SETTLED 13 YEARS BEFORE THE PILGRIMS EVER LANDED ON PLYMOUTH ROCK. HUNDREDS OF YEARS BEFORE THAT, THE ANASTASI AND PUEBLO INDIANS MADE SANTA FE THEIR HOME - AND THEIR DESCENDANTS STILL LIVE AND WORK THERE.
TODAY SANTA FE IS ONE OF THE MOST DISTINCTIVE CITIES IN THE WORLD, IT IS A CITY FAMOUS FOR ITS ARTS AND ITS AMBIANCE. A CITY KNOWN FOR ITS HOSPITALITY AND ITS CUISINE. IT IS FROM THIS CITY THAT CAFE SANTA FE TAKES ITS INSPIRATION AND ITS SOUTHWESTERN MENU.
CAFE SANTA FE IS THE TRUE FLAVOR OF SANTA FE. A WONDERFUL BLEND OF SPANISH, NATIVE AMERICAN AND ANGLO INFLUENCES THAT IS ORIGINAL NORTHERN NEW MEXICAN CUISINE. LIGHTER THAN TEX-MEX, MORE COLORFUL THAN TRADITIONAL MEXICAN, IT IS A FLAVOR ALL ITS OWN. AND ONCE YOU TASTE IT, YOU'LL KNOW.

LIFE IS PRECIOUS.

Did you know that 8 out of 10 deaths occur in the home? When everyone turns in for the night, you want to feel confident that you've done the most to protect your family. By installing a First Alert Professional fire detection & security system, you can be alerted to a fire emergency when it occurs. When seconds count, count on us!

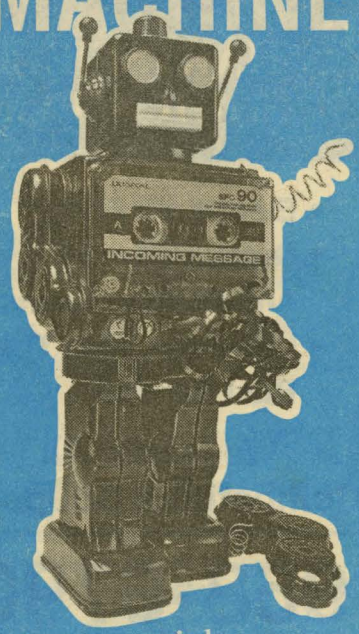
Get messages without the MACHINE,



with GTE Voice Mail.

GTE Basic Voice Mail
makes answering machines obsolete. It can:

- Take messages while you're on the phone or surfing the net
- Take messages even during a phone or power outage

Features also include:

- Accessibility from anywhere
- Ability to take up to 20 messages
- Competitive pricing starting at just $4.95 per month
- Secured access

Call toll-free
1-877-483-5800
for residential service.

People look in GTE's Yellow Pages directory when they are ready to buy.

Don't wonder what it's under. Use the Yellow Pages Index.

To make your search easier, the **Yellow Pages Index** at the beginning of the Yellow Pages lists every heading covered in this directory.

GTE

Trucking-Contract Haulers

Busy people

save time.

They buy

with GTE's

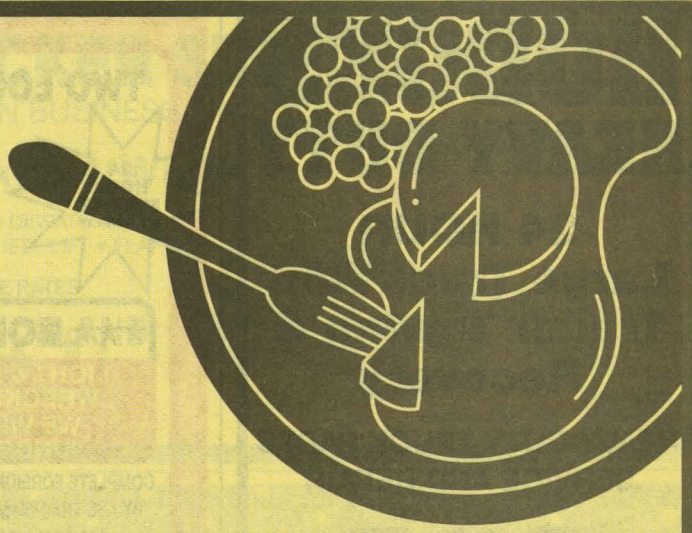
Yellow Pages directory.

Didn't make it to the phone in time? Try *69.

If you don't make it to the phone before the caller hangs up, just dial *69. For a small charge, the **GTE *69** service tells you the phone number of the person who called you last.

GTE

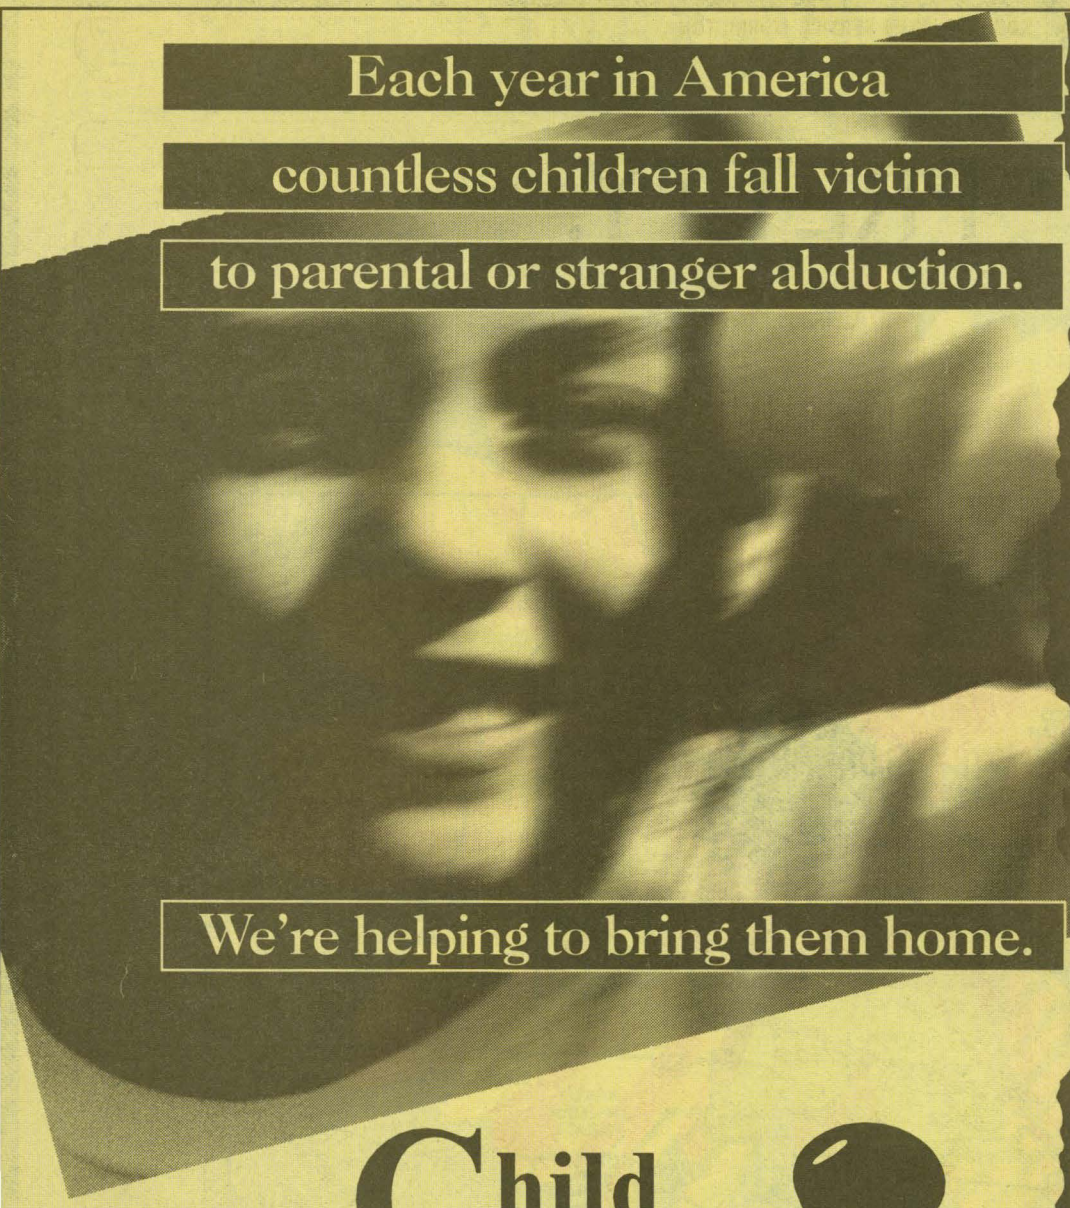
Charges apply.
Not available in all areas.



Find a diner in short order.

Whatever kind of business you're looking for, you'll find it quickly in GTE's Yellow Pages. It's the easiest directory to use.

GTE



Each year in America
countless children fall victim
to parental or stranger abduction.

We're helping to bring them home.

PRETTY.

EFFECTIVE.

Color photography. The affordable way to help increase impact, response and sales.

Color doesn't just capture the eye, it captures the imagination as well. So when you showcase your products with a full-color photograph, shoppers can see the kind and quality of the products you sell. That's what gets more shoppers to call and buy. And that's pretty effective.

GTE

Find out how affordable it is to add color photography to your GTE Yellow Pages ad. Contact your local GTE Directories Sales Representative.

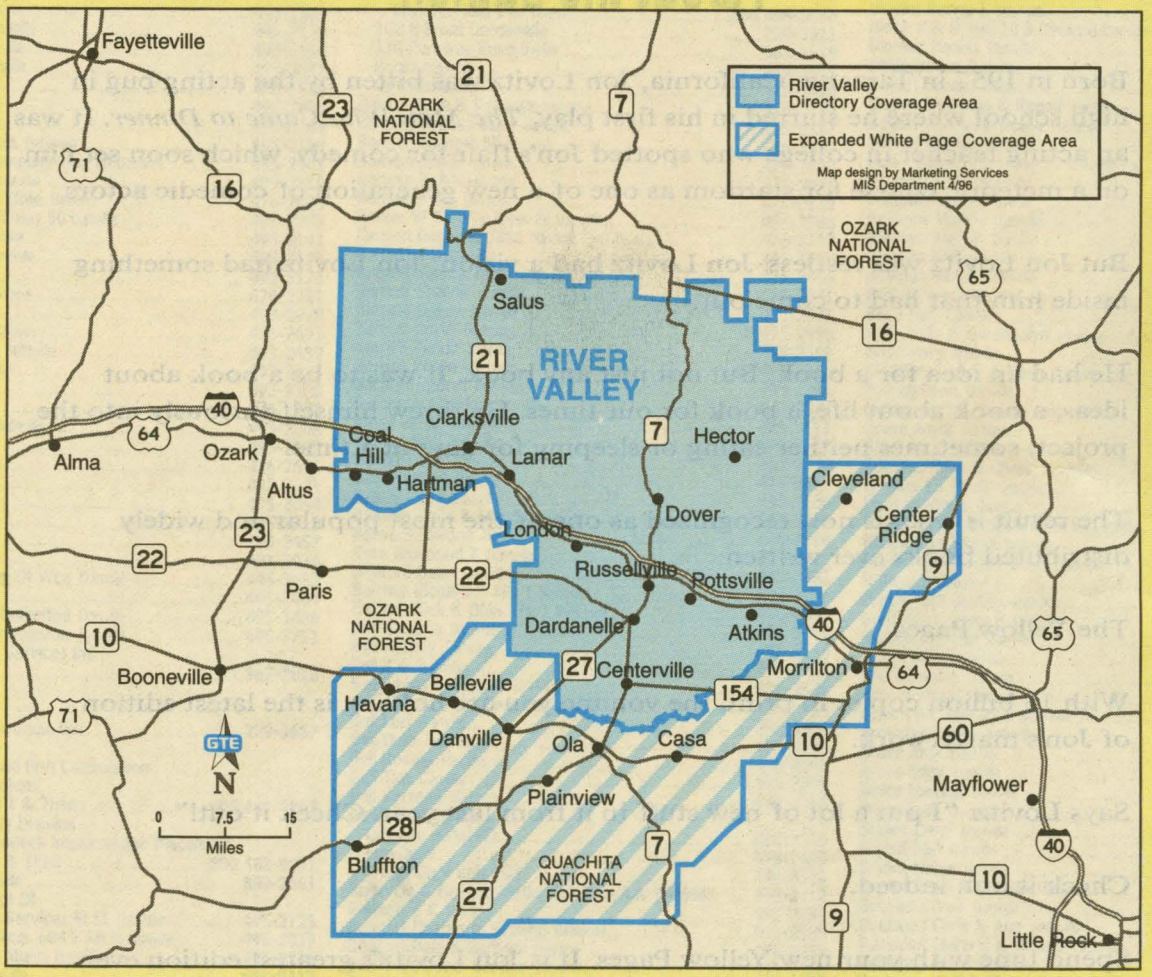
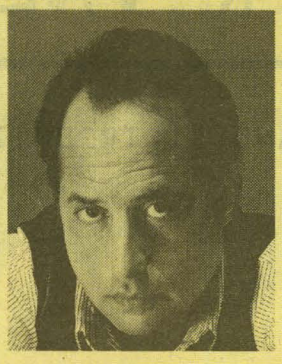
RIVER VALLEY

COVERAGE AND DISTRIBUTION AREAS





About the author.

Born in 1957 in Tarzana, California, Jon Lovitz was bitten by the acting bug in high school where he starred in his first play, *The Man Who Came to Dinner*. It was an acting teacher in college who spotted Jon's flair for comedy, which soon set him on a meteoric course for stardom as one of a new generation of comedic actors.

But Jon Lovitz was restless. Jon Lovitz had a vision. Jon Lovitz had something inside him that had to come out.

He had an idea for a book. But not just any book. It was to be a book about ideas, a book about life, a book for our times. He threw himself furiously into the project, sometimes neither eating or sleeping for days at a time.

The result is what is now recognized as one of the most popular and widely distributed books ever written:

The Yellow Pages.

With 15 billion copies in print, the volume you are holding is the latest edition of Jon's masterwork.

Says Lovitz: "I put a lot of new stuff in it from last year. Check it out!"

Check it out, indeed.

Spend time with your new Yellow Pages. It is Jon Lovitz's greatest edition ever, with a new discovery, a new revelation, a new idea waiting for you on every page.

HOW TO HELP WITH YOUR CHILD'S HOMEWORK

if you can't read.

YOU TELL YOUR CHILD
THE ONLY WAY TO LEARN IS
TO DO IT YOURSELF.

Part of you wants to follow the natural instincts of every parent and help your child learn and thrive. The other part of you wants to hide the fact that you can't.

YOU TELL YOUR CHILD
YOU DON'T UNDERSTAND
"THE NEW MATH."

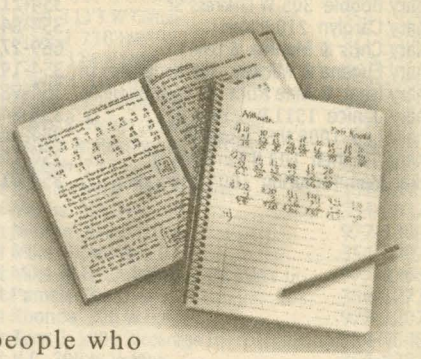
How long can you make excuses? Should you confess to your child that his or her reading level has already passed yours?

YOU TELL YOUR CHILD
YOU HAVE A HEADACHE.

Should you continue to bluff and find ways around the problem, the way you've done since you were a kid yourself?

YOU TELL YOUR CHILD LIES.

Your fear is that your child will lose respect for you because you can't read. But is that any worse than the respect you'll lose when your child figures out you couldn't tell the truth?



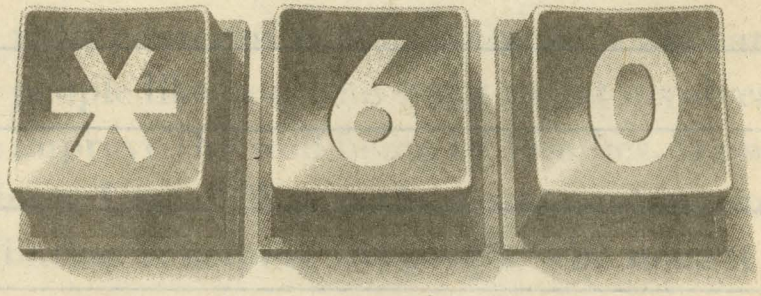
Real-life situations like this are faced every day by people who can't read. They're embarrassed. They're regretful. And sooner or later, many of them become fed up enough to finally seek help. That's where you come in.

By becoming a literacy volunteer, you can change the lives of people who, for one reason or another, never learned basic reading skills. All that's asked of you is a small commitment of time. We'll do the rest by providing training, materials and introductions. To find out more, call Literacy Volunteers of America at 1-877-HELP-LVA. And help open the world for someone who can't read.

— LITERACY VOLUNTEERS *of* AMERICA —

1-877-HELP-LVA

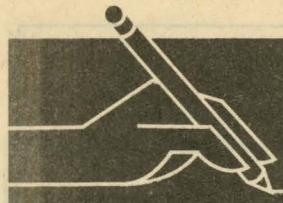
Think of it as a form of pest control.



Call Block *from* GTE.

Nothing eliminates annoying callers faster than Call Block, A SmartCall® Service from GTE. If you're being called by someone you don't want to talk to, simply hang up. Punch three buttons. And say good-bye. Your phone will no longer accept calls from that number. Call Block from GTE. It gets rid of the bugs in your life. Whoever they happen to be.

GTE



Notes

Together, young and older Americans, are rediscovering what they can accomplish... And we're all benefiting

At the center of every community are caring people like you who want to get involved to improve the well being of families, friends and neighbors. United Way is there too, making sure your contribution is helping the people who need it most.

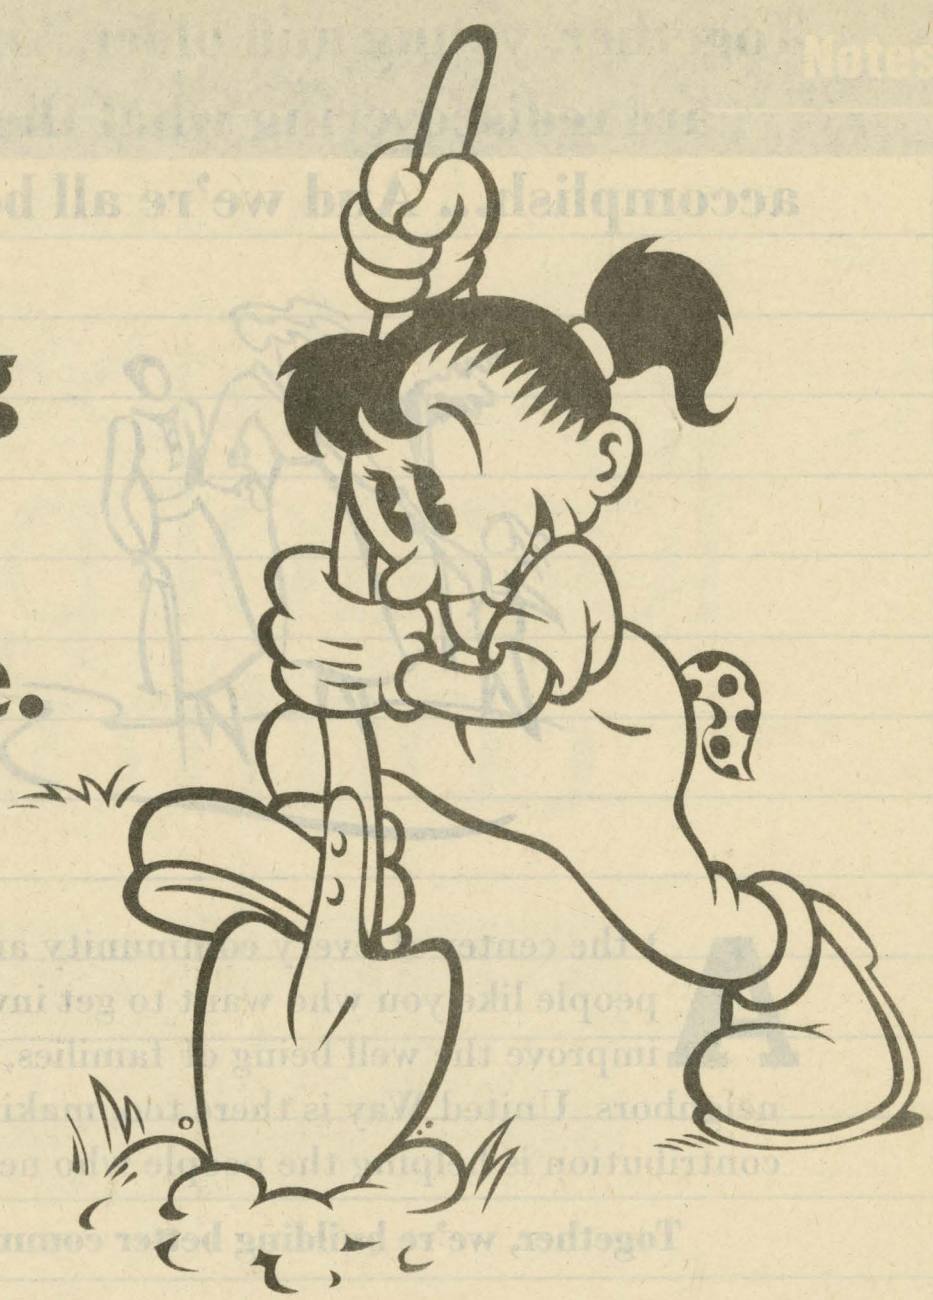
Together, we're building better communities.

United Way

The power of U

1 (800) 411-UWAY • http://www.unitedway.org

Don't go digging up trouble.



Before you do any extensive digging or construction on your property or public lands, please give your phone company a call. They'll let you know if you'll run into any of their telephone lines. All too often, private home owners and construction crews unintentionally dig up land where lines and cables are located. This sometimes results in costly damage or destruction. So let's work together to avoid needless disruption of telephone service in our community.

Call Before You Dig 1+800 482-8998

(You must give 48 hours advance notice excluding weekends and holidays.)

The following information will need to be provided by the customer:

- County, City or Township
- Section & ¼ Section No.
- Caller's name and firm
- Can be reached phone No.
- Location of proposed excavation
- Starting time and date
- Best time to call
- Type and extent of work
- Firm Address
